Thank you for purchasing this Panasonic product.
Please read these instructions carefully before operating this product and retain them for future reference.
The images shown in this manual are for illustrative purposes only.
Features

DVB-T tuner built-in
Receives DVB (Digital Video Broadcasting) digital terrestrial broadcasts.

DVB-T2 tuner built-in (UK only)
DVB-T2 is an advanced digital terrestrial system for more efficient transmission. Available DVB-T2 broadcasts will be tuned automatically when you perform DVB Auto Setup.

Sharp pictures and clear sound with HDMI connection (p. 90)
Enjoy high definition digital picture and high quality sound by using an HDMI cable.

Using USB devices
Enjoy the photo, video and music in the USB Flash Memory on Media Player. (p. 57) USB keyboard, gamepad, etc. are available. (p. 90, 91)

Timer Programming (p. 24, 48)
Timer Programming enables you to use functions such as programme reminder and programme recording to the external recorder.

SDXC Card
This TV supports SDXC Card. SDXC is the latest standard of SD Card and a higher storage capacity card.

DLNA
DLNA is a standard that makes digital electronics easier and more convenient to use on a home network. (p. 70)

VIERA Connect - Enjoy great web entertainment (p. 18, 73)
VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, EPG, communication tools, etc. from VIERA Connect home screen.

Link up and control the connected equipment with “Q-Link” and “VIERA Link” (p. 74)
Q-Link and VIERA Link provide easy recording and playback, creation of a home theatre without complicated settings, etc.

VIERA TOOLS - Display special feature icons for easy accessibility (p. 31)
Special features (such as VIERA Link and Media Player) can be accessed easily by using the VIERA TOOLS button.

Dolby Digital Plus / Dolby Pulse decoders
It is possible to decode Dolby Digital Plus / Dolby Pulse multi-channel audio tracks and output as Dolby Digital Bitstream (multi-channel sound signal) from DIGITAL AUDIO OUT / HDMI2 (ARC function) terminals.

Owner ID (p. 52)
Owner ID is an anti-theft function. Entering the PIN number and owner’s personal information will help the Police to determine the owner in the case of theft.

Voice Guidance (p. 21, 36)
Voice Guidance narrates the operation of the basic features (EPG, on-screen messages, etc.) to assist visually-impaired users.

Supports Audio Description signal (p. 21, 36)
Audio Description (when broadcast) adds an additional soundtrack to describe events on screen (narration) and aids understanding and enjoyment, particularly for visually-impaired users.

Digital Switchover for Terrestrial broadcasts (UK only)
Starting in late 2007 and ending in 2012, TV services in the UK will go completely digital, TV region by TV region. If you have any questions, please call Digital UK on 08456 50 50 50 or visit www.digitaluk.co.uk
Digital Switchover will cover a period of several weeks. When it starts you will lose all Analogue TV channels and some Digital TV channels will be missing.
You will need to retune your TV each time this happens to recover your digital channels. Analogue channels are permanently turned off, it will not be possible to recover them.
* To retune your TV press [Auto Setup] in [DVB Tuning Menu]-DVB mode (p. 44)
Users of cable or satellite boxes should still retune the TV to continue to receive Freeview channels via their aerial. (Your Analogue channel for viewing Cable or Satellite services will change to a new position.)
* Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
Transport only in upright position

Panasonic does not guarantee operation and performance of peripheral devices made by other manufacturers; and we disclaim any liability or damage arising from operation and/or performance from usage of such other maker's peripheral devices.

This product is licensed under the AVC patent portfolio license for the personal and non-commercial use of a consumer to (i) encode video in compliance with the AVC Standard ("AVC Video") and/or (ii) decode AVC Video that was encoded by a consumer engaged in a personal and non-commercial activity and/or was obtained from a video provider licensed to provide AVC Video. No license is granted or shall be implied for any other use. Additional information may be obtained from MPEG LA, LLC. See http://www.mpegla.com.

Rovi Corporation and/or its subsidiaries and related affiliates are not in any way liable for the accuracy or availability of the program schedule information or other data in the Rovi Guide system and cannot guarantee service availability in your area. In no event shall Rovi Corporation and/or its related affiliates be liable for any damages in connection with the accuracy or availability of the program schedule information or other data in the Rovi Guide system.

Notice for DVB / Data broadcasting / IPTV functions
This TV is designed to meet the standards (as of August, 2011) of digital services.
* Not all the features are available depending on the country, area, broadcaster, service provider and network environment.
* The compatibility with future services is not guaranteed.
* Check the latest information on the available services at the following website.
  http://panasonic.jp/support/global/cs/tv/
**Safety Precautions**

**Warning**

**Mains plug and lead**

To help avoid risk of electrical shock, fire, damage or injury, please follow the warnings below:

- This TV is designed to operate on AC 220-240 V, 50 / 60 Hz.
- Insert the mains plug fully into the socket outlet.
- Ensure that the mains plug is easily accessible.
- Remove the mains plug when cleaning the TV.

- Do not touch the mains plug with a wet hand.
- Do not damage the mains lead.
  - Do not place a heavy object on the lead.
  - Do not place the lead near a high temperature object.
- Do not pull on the lead. Hold onto the mains plug body when disconnecting the plug.
- Do not move the TV with the lead plugged into a socket outlet.
- Do not twist the lead, bend it excessively or stretch it.
- Do not use a damaged mains plug or socket outlet.
- Ensure the TV does not crush the mains lead.
- Do not use any mains lead other than that provided with this TV.

---

**IMPORTANT: THE MOULDED MAINS PLUG**

**FOR YOUR SAFETY, PLEASE READ THE FOLLOWING TEXT CAREFULLY.**

This TV is supplied with a moulded three pin mains plug for your safety and convenience. A 5 amp fuse is fitted in this mains plug. Shall the fuse need to be replaced, please ensure that the replacement fuse has a rating of 5 amps and that it is approved by ASTA or BSI to BS1362.

Check for the ASTA mark or the BSI mark on the body of the fuse.

If the mains plug contains a removable fuse cover, you must ensure that it is refitted when the fuse is replaced. If you lose the fuse cover the mains plug must not be used until a replacement cover is obtained.

A replacement fuse cover may be purchased from your local dealer.

Do not cut off the mains plug.

Do not use any other type of mains lead except the one supplied with this TV.

The supplied mains lead and moulded plug are designed to be used with this TV to avoid interference and for your safety.

If the socket outlet in your home is not suitable, get it changed by a qualified electrician.

If the plug or mains lead becomes damaged, purchase a replacement from an authorized dealer.

**How to replace the fuse**

**For plug type shown in example 1:**

Lift out the removable fuse compartment with a screwdriver and replace the fuse, then refit securely into the mains plug (see example 1).

**For plug type shown in example 2:**

Lift open the fuse compartment, in the mains plug, with a screwdriver, and replace the fuse, then press the fuse cover down securely (see example 2).
Warning

■ Take care
To help avoid risk of electrical shock, fire, damage or injury, please follow the warnings below:

• Do not remove covers and never modify the TV yourself as live parts are accessible when they are removed. There are no user serviceable parts inside.

• Do not expose the TV to rain or excessive moisture. This TV must not be exposed to dripping or splashing water and objects filled with liquid, such as vases, must not be placed on top of or above the TV.

• Do not expose the TV to direct sunlight and other sources of heat. To prevent fire never place any type of candle or naked flame on top or near the TV.

• Do not place the TV on sloped or unstable surfaces, and ensure that the TV does not hang over the edge of the base.

• Do not insert foreign objects into the TV through the air vents.

• Do not use an unapproved pedestal / mounting equipment. Be sure to ask your local Panasonic dealer to perform the setup or installation of approved wall-hanging brackets.

• Do not apply strong force or impact to the display panel.

• This TV is designed for Table-top use.

To prevent the spread of fire, keep candles or other open flames away from this product at all times

■ Small object
This product contains possibly dangerous parts that can be breathed in or swallowed by young children accidentally.

• Keep the dangerous parts out of reach of young children.

• Do not allow children to handle SD Card. As with any small object, the SD Card could be swallowed by young children. Please remove SD Card immediately after use and store out of reach of young children.

Caution

■ Ventilation
Allow sufficient space around the TV in order to help prevent excessive heat, which could lead to early failure of some electronic components.

• Ventilation should not be impeded by covering the ventilation openings with items such as newspapers, tablecloths and curtains.

• Whether you are using the pedestal or not, always ensure the vents in the bottom of the TV are not blocked and there is sufficient space to enable adequate ventilation.

■ Moving the TV
Before moving the TV, disconnect all cables.

■ When not in use for a long time
This TV will still consume some power even in the Off mode, as long as the mains plug is still connected to a live socket outlet.

• Remove the mains plug from the wall socket when the TV is not in use for a prolonged period of time.

■ Excessive volume
Do not expose your ears to excessive volume from the headphones. Irreversible damage can be caused.

- **Clamper**: (p. 13)
- **Terminal adaptors**: AV1 (SCART) adaptor K1HY20YY0011 (p. 12)
- **Operating Instructions**:
  - Accessories may not be placed all together. Take care not to throw them away unintentionally.
  - This product contains possibly dangerous parts (such as plastic bags), that can be breathed in or swallowed by young children accidentally. Keep these parts out of reach of young children.

## Optional accessories

Please contact your local Panasonic dealer to purchase the recommended optional accessories. For additional details, please read the manual of the optional accessories.

### Wireless LAN Adaptor and exclusive stand

- **TY-WL20E**
  - To use the Wireless LAN Adaptor, an access point needs to be obtained.
  - It is recommended to use the Wireless LAN Adaptor with the extension cable.
  - To avoid malfunctions caused by radio wave interference, keep the TV away from the devices such as other wireless LAN devices, microwaves and the devices that use 2.4 GHz and 5 GHz signals when using the Wireless LAN Adaptor.
  - Depending on the area, this optional accessory may not be available.
  - Additional information for Wireless LAN Adaptor and access point may be on the following website.

### Communication Camera

- **TY-CC20W**
  - This camera can be used on VIERA Connect (p. 18, 73).
  - Depending on the area, this optional accessory may not be available.
  - For details, consult your local Panasonic dealer.
Wall-hanging bracket
Please contact your local Panasonic dealer to purchase the recommended wall-hanging bracket.

- Holes for wall-hanging bracket installation

![Diagram of Rear of the TV with labeled holes for wall-hanging bracket]

Warning
- Using other wall-hanging brackets, or installing a wall-hanging bracket by yourself has the risk of personal injury and product damage. In order to maintain the unit’s performance and safety, be sure to ask your dealer or a licensed contractor to secure the wall-hanging brackets. Any damage caused by installing without a qualified installer will void your warranty.
- Carefully read the instructions accompanying optional accessories, and be sure to take steps to prevent the TV from falling off.
- Handle the TV carefully during installation since subjecting it to impact or other forces may cause product damage which will void your warranty.
- Do not mount the unit directly below ceiling lights (such as spotlights or halogen lights) which typically give off high heat. Doing so may warp or damage plastic cabinet parts.
- Take care when fixing wall brackets to the wall. Wall mounted equipment must not be grounded by metal within the wall. Always ensure that there are no electrical cables or pipes in the wall before hanging bracket.
- To prevent fall and injury, remove the TV from its fixed wall position when it is no longer in use for an extended period of time.

Installing / removing remote’s batteries

1. Pull Open
   - [Diagram of remote control battery compartment with pull tab]
   - Caution
     - Incorrect installation may cause battery leakage and corrosion, resulting in damage to the remote control.
     - Do not mix old and new batteries.
     - Replace only with same or equivalent type. Do not mix different battery types (such as alkaline and manganese batteries).
     - Do not use rechargeable (Ni-Cd) batteries.
     - Do not burn or break up batteries. Batteries must not be exposed to excessive heat such as sunshine, fire, etc.
     - Make sure you dispose of batteries correctly.
     - Ensure batteries are replaced correctly, there is danger of explosion and fire if battery is reversed.
     - Do not disassemble or modify the remote control.

2. Close
   - Note the correct polarity (+ or -)

Attaching / removing the pedestal

Warning
- Do not disassemble or modify the pedestal.
  - Otherwise the TV may fall over and become damaged, and personal injury may result.

Caution
- Do not use any pedestal other than the one provided with this TV.
  - Otherwise the TV may fall over and become damaged, and personal injury may result.
- Do not use the pedestal if it becomes warped or physically damaged.
  - If you use the pedestal while it is physically damaged, personal injury may result. Contact your local Panasonic dealer immediately.
- During set-up, make sure that all screws are securely tightened.
  - If insufficient care is taken to ensure screws are properly tightened during assembly, the pedestal will not be strong enough to support the TV, and it might fall over and become damaged, and personal injury may result.
- Ensure that the TV does not fall over.
  - If the TV is knocked or children climb onto the pedestal with the TV installed, the TV may fall over and personal injury may result.
- Two or more people are required to install and remove the TV.
  - If two or more people are not present, the TV may be dropped, and personal injury may result.
- When removing the pedestal from the TV, do not remove the pedestal by the methods other than the specified procedure.  ⇒ (p. 8)
  - Otherwise the TV and / or pedestal may fall over and become damaged, and personal injury may result.
1 Assembling the pedestal
Use the assembly screws A to fasten the bracket C to the base D securely.
- Make sure that the screws are securely tightened.
- Forcing the assembly screws the wrong way will strip the threads.

2 Securing the TV
Use the assembly screws A to fasten securely.
- Tighten the four assembly screws loosely at first, then tighten them firmly to fix securely.
- Carry out the work on a horizontal and level surface.

Removing the pedestal from the TV
Be sure to remove the pedestal in the following way when using the wall-hanging bracket or repacking the TV.
1 Remove the assembly screws A from the TV.
2 Pull out the pedestal from the TV.
3 Remove the assembly screws A from the bracket.

Preventing the TV from falling over
Using the fall-prevent screw hole and a screw (commercially available), securely fix the body of the pedestal to the installation surface.
- The place where the pedestal is to be fixed should be thick enough and made of hard material.

Identifying Controls

Indicator / Control panel

1 Function select
- *[Music] or [Speech] mode in the Sound Menu

2 Channel Up / Down, Value change (when using the F button), Switching the TV on (press either button for about 1 second when in Standby mode)

3 Changes the input mode

4 Mains power On / Off switch
- Use to switch the mains power.
  If you turned the TV off during Standby mode by the remote control last time, the TV will be in Standby mode when you turn the TV on with Mains power On / Off switch.

When pressing the control panel button (1 - 4), the control panel guide appears on the right side of the screen for 3 seconds to highlight the pressed button.

5 Remote control signal receiver
- Do not place any objects between the TV remote control signal receiver and remote control.

6 C.A.T.S. (Contrast Automatic Tracking System) sensor
- Senses brightness to adjust picture quality when [C.A.T.S.] in the Picture Menu is set to [On].
  (p. 33)

7 Power and Timer LED
- Red: Standby
- Green: On
- Orange: Timer Programming On
- Orange (flash):
  Recording of Timer Programming or Direct TV Recording in progress
- Red with orange flash:
  Standby with Timer Programming On or Direct TV Recording
- The LED blinks when the TV receives a command from the remote control.

Using the On Screen Displays - Operation guide

Many features available on this TV can be accessed via the On Screen Display menu.

- **Operation guide**
  Operation guide will help you to operate by using the remote control.
  Example: [Sound Menu]

![Owner ID]

- Please enter new PIN
- PIN
- EXIT

Operation guide

- **How to use remote control**
  - MENU
    - Open the main menu
  - Move the cursor / select from a range of options / select the menu item (up and down only) / adjust levels (left and right only)
  - Access the menu / store settings after adjustments have been made or options have been set
  - BACK / RETURN
    - Return to the previous menu
  - EXIT
    - Exit the menu system and return to the normal viewing screen

Auto power standby function

The TV will automatically go into Standby mode in the following conditions:
- No signal is received and no operation is performed for 30 minutes in Analogue TV mode.
- [Off Timer] is active in the Timer Menu. (p. 21)
- No operation is performed for the period selected in [Auto Standby] (p. 36).

* This function does not affect the recording of Timer Programming and Direct TV Recording.
Basic Connection

External equipment and cables shown are not supplied with this TV.
Please ensure that the unit is disconnected from the mains socket before attaching or disconnecting any leads.

Terminals

1 CI slot  (p. 53)
2 SD Card slot  (p. 57)
3 USB 1 - 2 port  (p. 57, 82)
4 HDMI1 - 4  (p. 12, 82)
5 Headphone jack  (p. 83)
6 ETHERNET  (p. 13)
7 Terrestrial terminal (see below)
8 DIGITAL AUDIO OUT  (p. 83)
9 PC terminal  (p. 82)
10 AV1 (SCART)  (p. 12)
11 AV2 (COMPONENT / VIDEO)  (p. 82)

Connections

Mains lead and aerial

AC 220-240 V
50 / 60 Hz

Terrestrial aerial

Insert the mains plug (supplied) firmly into place.

* When disconnecting the mains lead, be absolutely sure to disconnect the mains plug at the socket outlet first.
AV devices

- **Player**

  ![HDMI connection diagram](image1)

- **DVD Recorder / VCR**

  ![AV1 (SCART) connection diagram](image2)

- **DVD Recorder / VCR and Satellite receiver**

  ![AV1 (SCART) connection diagram](image3)

**Note**
- Connect to the TV's AV1 for a DVD Recorder / VCR supporting Q-Link (p. 76).
- Q-Link and VIERA Link connection (p. 74, 75)
- Please also read the manual of the equipment being connected.
- Keep the TV away from electronic equipment (video equipment, etc.) or equipment with an infrared sensor. Otherwise, distortion of image / sound may occur or operation of other equipment may be interfered.
- When using a SCART or HDMI cable, use the fully wired one.
- Check the type of terminals and cable plugs are correct when connecting.
Network

To enable the network service functions (VIERA Connect, etc.), you need to connect the TV to a broadband network environment.
- If you do not have any broadband network services, please consult your retailer for assistance.
- Prepare the internet environment for wired connection or wireless connection.
- Setup of the network connection will start after the tuning (when first using the TV).  

**Wired connection**

TV

LAN cable (Shielded)
- Use the Shielded Twist Pair (STP) LAN cable.

**Wireless connection**

TV

Wireless LAN Adaptor and exclusive stand
- "Optional accessories" (p. 6)
- Insert the Wireless LAN Adaptor to the stand straightly and completely.
- Connect to the USB 1 or 2 port.

**Using clamper**

- Do not bundle the RF cable and mains lead together (could cause distorted image).
- Fix cables with clamps as necessary.
- When using the optional accessory, follow the option's assembly manual to fix cables.

**Clamper (Standard accessory)**

Attach the clamper

Insert the clamper in a hole

Bundle the cables

Set the tip in the hooks

To remove from the TV:

Keep pushing both side snaps

To loosen:

Keep pushing the knob
Auto Setup

Search and store TV channels automatically.

- These steps are not necessary if the setup has been completed by your local dealer.
- Please complete connections (p. 11 - 13) and settings (if necessary) of the connected equipment before starting Auto Setup. For details of settings for the connected equipment, read the manual of the equipment.

Plug the TV into mains socket and switch on

- Takes a few seconds to be displayed.
- If the red LED shows on the TV, press the Standby On / Off switch on the remote control for about 1 second.

Select your country

1. Plug the TV into mains socket and switch on
2. Select your country

Example: United Kingdom

Auto Setup - DVB and Analogue

DVB Scan

Analogue Scan

This will take about 6 minutes.

Sending Preset Data

Please wait!

Remote control unavailable

Auto Setup will start to search for TV channels and store them.
- Actual number of channels may differ due to channel duplication.

Sending Preset Data

Please wait!

Remote control unavailable

If Q-Link or similar technology (p. 76) compatible recorder with analogue tuner is connected, analogue channel setting is automatically downloaded to the recorder. (Digital channel setting is not downloaded.)
- If downloading has failed, you can download later through the Setup Menu.
  - “Q-Link Download” (p. 37)

Region selection screen may appear.

Channel Sorting by Region

GB

Best signal quality (All Regions)

England Regions

(Integer repeatedly until you reach the available region)
Setup the network connection

Setup the network connection to enable the network service functions such as VIERA Connect, etc. (p. 18, 65).
- Please note that this TV does not support wireless public access points.
- Ensure the network connections (p. 13) and network environment are completed before starting setup.

Select the network type

![Network Setup]

**[Wired]** → “Wired connection” (p. 13)
**[Wireless]** → “Wireless connection” (p. 13)

1. Select [Auto]
   - Acquire IP Address
     - Auto
     - Manual
   - Connection Test
     - Check network cable connection.
     - Check acquired IP address.
     - Check for devices using same IP address.
     - Check gateway connection.
     - Check server connection for VIERA Connect.
   - To setup later on or skip this step
     - Select [Set later] or EXIT

2. Go to the next step
   - (Press twice)

**[Wireless]**

Access points found automatically are listed.

1. Select your desired access point
   - Available Wireless Networks
   - To search access points again
   - (blue)
   - Encryption Key Setting
     - Connection will be made with the following settings:

   - If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

3. Enter the encryption key of the access point
   - Wireless Network Settings
     - Encryption key
   - Set characters
     - You can set characters by using numeric buttons.
3. After the access point setting is finished, perform the connection test

**Connection Test**
- Check wireless network connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection for VIERA Connect.

- succeeded
  The test is successful and the TV is connected to the network.
- failed
  Check the settings and connections. And then select [Retry].
  - To set manually, select [Manual] and set each item.
  For details ⇒ (p. 68)

5. Go to the next step 4

(WPS(Push button])
1. Press the WPS button on the access point until the light flashes
2. Connect the TV with the access point

**WPS(Push button)**
1) Please press the ‘WPS’ button on the access point until its light flashes.
2) When the light is flashing select ‘Connect’ on TV.
   If you are unsure, please check the instruction manual of the access point.

- Ensure that your access point supports WPS for this setup.
- WPS: Wi-Fi Protected Setup™
- If the connection has failed, check the settings and positions of your access point. And then, follow the on-screen instructions.

3. After the access point setting is finished, perform the connection test

**Connection Test**
- Check wireless network connection.
- Check acquired IP address.
- Check for devices using same IP address.
- Check gateway connection.
- Check server connection for VIERA Connect.

- succeeded
  The test is successful and the TV is connected to the network.
- failed
  Check the settings and connections. And then select [Retry].
  - To set manually, select [Manual] and set each item.
  For details ⇒ (p. 68)

4. Go to the next step 4

(WPS(Push button])
1. Press the WPS button on the access point until the light flashes
2. Connect the TV with the access point

**WPS(Push button)**
1) Please press the ‘WPS’ button on the access point until its light flashes.
2) When the light is flashing select ‘Connect’ on TV.
   If you are unsure, please check the instruction manual of the access point.

- Ensure that your access point supports WPS for this setup.
- WPS: Wi-Fi Protected Setup™
- If the connection has failed, check the settings and positions of your access point. And then, follow the on-screen instructions.

4. Input Owner ID

Please enter your own choice of PIN number, name, etc. to help the police to crack crime.

- Make a note of the PIN number in case you forget it. The PIN number cannot be reset.
- You can input or change the Owner ID later. ⇒ “Owner ID” (p. 52)
- To skip this step
  EXIT
- This step will be skipped in the Auto Setup after [Shipping Condition] (p. 51) is performed.
4 How to input Owner ID
1 Enter the PIN number (4 digits)

Owner ID
Please enter new PIN
PIN

- Enter the PIN number twice at first setting.

2 Select the item (NAME / HOUSE NO / POSTCODE)

Owner ID-Data Entry
PIN
NAME
HOUSE NO
POSTCODE

- Select the next item and repeat the operations.

3 Enter your name, house number and postcode

Set characters

User input
NAME

- You can set characters by using numeric buttons.

- Characters table for numeric buttons" (p. 92)

4 Exit to go to next step

EXIT

5 Select [Home]

Select [Home] viewing environment to use in your home environment.

Please select your viewing environment.
Home Shop

- You can return to viewing environment selection screen at the stage of Shop confirmation screen.

[Shop] viewing environment (for shop display only)

[Shop] viewing environment is the demonstration mode to explain main features of this TV.

Select [Home] viewing environment to use in your home environment.

- Select [Home]

You have selected shop mode

To change viewing environment later on, you will need to initialise all settings by accessing Shipping Condition. ⇒ [Shipping Condition] (p. 51)

Auto Setup is now complete and your TV is ready for viewing.

If tuning has failed, check the connection of the RF cable, and then, follow the on-screen instructions.

Note
- To check the channel list ⇒ “Using TV Guide” (p. 23)
- To edit or hide (skip) channels ⇒ “Tuning and Editing Channels” (p. 45 - 47)
- To retune all channels ⇒ [Auto Setup] (p. 44)
- To initialise all settings ⇒ [Shipping Condition] (p. 51)
Using “VIERA Connect”

VIERA Connect is a gateway to the internet services unique to Panasonic. VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, EPG, communication tools, etc. from VIERA Connect home screen.

- This TV does not support full web browser function and some features of the websites may not be available.

1 Turn power on
- Press for about 1 second.
- Mains power On / Off switch should be on. (p. 10)
- Every time you turn on the TV, VIERA Connect introduction banner appears. The banner is subject to change.

2 Access VIERA Connect
- While the banner is displayed
- Depending on the usage conditions, it may take a while to read all the data.
- Messages might be displayed before VIERA Connect home screen. Please read these instructions carefully and follow the on-screen instructions.

Example: VIERA Connect home screen
- To go to the next level, select [MORE].
- To back to the previous level, select [BACK].
- To return to VIERA Connect home screen

- Video communication (for example Skype™) requires an exclusive Communication Camera TY-CC20W.
- “Optional accessories” (p. 6)
  For details, read the manual of the Communication Camera.
- You can connect a keyboard and a gamepad via USB port for character input and playing games in VIERA Connect. You can also operate the TV with a keyboard or a gamepad other than VIERA Connect features.
  For more information “USB connection” (p. 90)

Note
- If you cannot access VIERA Connect, check the network connections (p. 13) and settings (p. 15 - 16).
- For more information of VIERA Connect (p. 73)
Watching TV

1 Turn power on
   - Press for about 1 second.
   - Mains power On / Off switch should be on. (p. 10)

   VIERA Connect introduction banner appears
   Every time you turn on the TV, this banner appears at the bottom of the screen.
   You can access to VIERA Connect easily and enjoy the various contents. (p. 18)
   • To remove this banner, leave for about 5 seconds or press any buttons (except the buttons to access VIERA Connect).
   • To set this banner display off [VIERA Connect Banner] (p. 38)
   • The banner is subject to change.

2 Select the mode
   • You can also select the mode pressing the TV button repeatedly on the remote control or the TV (p. 10).

3 Select a channel
   - DVB channel position numbers run from 1 onwards.
   - Analogue channel position numbers run in the ranges 0 - 99.
   - To select a more than two-digit channel position number, e.g. 399
   - To select a channel using Information banner (p. 20)
     It is possible to confirm the channel name and programme information by using the Information banner before changing channels.
     1 Display Information banner if it is not displayed
     2 While the banner is displayed, select the channel

   - To select a channel using TV Guide (p. 23)
     It is possible to confirm the channel and programme information by using the TV Guide (EPG) before changing channels.
     1 Display TV Guide
     2 Select the current programme or channel

   Note
   • To watch pay-TV “Using Common Interface” (p. 53)
Other useful functions

Display Information banner

- Also appears when changing a channel.

5 Programme Start / Finish time (DVB)
6 Progress time indicator of the selected programme (DVB)
7 [All DVB Channels] or [Favourites]1 to 4 (p. 45) (DVB)

Features available / Message meanings

[Mute] Sound mute on
[Bad signal] Poor TV signal quality
[Dolby D+], [Dolby D], [HE-AAC] Dolby Digital Plus, Dolby Digital or HE-AAC audio track
[Also in UK only] Same programme available as HD broadcast
[AD] Audio Description service available
[STTL] Subtitle service available
[TEXT] Teletext service available
[Multi Audio] Multiple audio available
[AD], [STTL], [TEXT], [Multi Audio] indications are displayed as available on particular programmes, but may not be available for all individual programmes being broadcast. Display the extra information to confirm availability of these functions.

[HD] HDTV broadcast
[All DVB Channels] or [Favourites]1 to 4 (p. 45) (DVB)
[AD] Audio Description service available
[STTL] Subtitle service available
[TEXT] Teletext service available
[Multi Audio] Multiple audio available

Examples:

Switch to previously viewed channel or input mode easily
- Press again to return to the current view.

[AD], [STTL], [TEXT], [Multi Audio] indications are displayed as available on particular programmes, but may not be available for all individual programmes being broadcast. Display the extra information to confirm availability of these functions.

Note
- Switching channel is not available while the recording of Timer Programming or Direct TV Recording is in progress.
- Watching less than 10 seconds is not regarded as the previously viewed channel or input mode.
Hold
Freeze / unfreeze picture

Display the selectable settings for the current status

Confirm or change the current status instantly

OPTION
• To change
○ select
① access
② select / change
③ store

[Multi Audio / AD] [Ireland only] (DVB)
Selects between alternative language or Audio Description for sound tracks (if available)
• Set Audio Description [Auto] in the Sound Menu (p. 36) to select the audio description sound track. In freesat mode, Audio Description cannot be controlled separately from the audio description sound track.
• This setting is not memorised and it will return to the default setting once you exit the current programme.

[Audio Description] [UK only] (DVB)
Set to [Auto] if the programme has Audio Description service, then you will hear an additional audio track to describe events on screen
• To adjust the volume for Audio Description ➤ [Audio Description Menu] (p. 36)

[Multi Audio] [UK only] (DVB)
Selects between alternative language for sound tracks (if available)
• This setting is not memorised and it will return to the default setting once you exit the current programme.

[Teletext Character Set]
[Ireland only]
Sets the teletext language font ➤ (p. 38)

[Teletext Language] [Ireland only] (DVB)
Selects between alternative language for teletext (if available)

[Voice Guidance Settings]
Guidance settings for visually impaired users ➤ (p. 36)

[Monaural Audio] (DVB)
Selects stereo / monaural (if available)
• This setting is not memorised and it will return to the default setting once you exit the current programme.

[NICAM] (Analogue)
Switches NICAM sound (if available) ➤ (p. 35)

[Subtitle Language] (DVB)
Selects the language in which subtitles should appear (if available)
• This setting is not memorised and it will return to the default setting once you exit the current programme.

[Teletext Language] (DVB)
Selects between alternative language for teletext (if available)

[Volume Correction]
Adjusts volume of individual channel or input mode

Off Timer

Turn the TV to Standby mode automatically after a fixed period

OFF TIMER
Press the button repeatedly until you reach the desired time.
• To cancel, set to [Off] or turn the TV off.
• To confirm the remaining time ➤ “Display Information banner” (p. 20)
• When the remaining time is within 3 minutes, the remaining time will flash on the screen.
• You can also set the [Off Timer] via the [Timer] menu ➤ (p. 36)
Aspect

Change the aspect ratio (image size)

Enjoy viewing the image at its optimum size and aspect. Programmes usually contain an “Aspect Control Signal” (Widescreen signal, etc.), and the TV will choose the aspect ratio automatically according to the “Aspect Control Signal” (p. 85).

To change the aspect ratio manually

1 Display Aspect Selection list

2 While the list is displayed, select the mode

- You can also change the mode only using the ASPECT button.
  (Press repeatedly until you reach the desired mode.)

[Auto]
The best ratio is chosen and the image expanded to fill the screen.
For details (p. 85)

[16:9] Directly displays the image at 16:9 without distortion (anamorphic).

[14:9] Displays the image at the standard 14:9 without distortion.

[4:3] Displays the image at the standard 4:3 without distortion.

[Zoom1] Displays a 16:9 letterbox or 4:3 image without distortion.

[Zoom2] Displays a 16:9 letterbox (anamorphic) image full-screen without distortion.

[Zoom3] Displays a 2.35:1 letterbox (anamorphic) image full-screen without distortion. At 16:9, displays the image at its maximum (with slight enlargement).

Note
- Aspect mode can be memorised separately for SD (Standard definition) and HD (High definition) signals.

Display subtitles

DVB
Display / hide subtitles (if available)

To change the language for DVB (if available) [Preferred Subtitles] (p. 38)

Analogue
Display subtitles 
Hide subtitles

Note
- This is the same as switching to Analogue teletext service and selecting “P888” (subtitle service). (p. 27)
- You cannot change the channel when this function is active.
Using TV Guide

TV Guide - Electronic Programme Guide (EPG) provides an on-screen listing of the programmes currently broadcast and the forthcoming broadcasts over the next seven days (depending on the broadcasters).

- DVB and Analogue channels are displayed on the same TV Guide screen. [D] means DVB channel and [A] means Analogue channel. There will be no programme listings for Analogue channels.
- When this TV is turned on for the first time, or the TV is switched off for more than a week, it may take some time before TV Guide is completely shown.

1. **Select the mode** *(p. 19)*
2. **View TV Guide**

   ![Remote Control](image)

   - To return to TV
     ![EXIT](image) or ![GUIDE](image)

   - To change the layout of TV Guide → [TV Guide View] *(p. 37)*
   - To watch the programme
     1. Select the current programme or channel
        - 1. select
        - 2. access
     2. Select [View] *(DVB)*

   - To use Timer Programming → *(p. 24)*

   - If a programme exists in both HD and SD broadcasts, the [View Options] screen will be displayed to select HD or SD broadcast. *(DVB) (UK only)*

3. **To the previous day** *(DVB)*
   - (red)

4. **To the next day** *(DVB)*
   - (green)

5. **View details of the programme** *(DVB)*

   - 1. Select the programme
   - 2. View details

   - Press again to return to TV Guide.

Example:

<table>
<thead>
<tr>
<th>Channel</th>
<th>Programme</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>
<td>BBC ONE</td>
<td>DIY SOS</td>
<td>19:30-20:00</td>
</tr>
<tr>
<td>BBC HD</td>
<td>DIY SOS</td>
<td>19:30-20:00</td>
</tr>
</tbody>
</table>

You can select HD or SD broadcast before viewing or setting Timer Programming.

Some programmes may also be broadcast in HD *(UK only)*.

To check / change / cancel a timer programming event

“Timer Programming” (p. 48 - 49)

If you select the current programme

A confirmation screen asking whether you want to watch or record the programme appears. Select [Timer Programming] and set [Ext Rec.] to record from the time you finish the timer programming event setting.

Timer Programming

Function No. | Channel Name | Date | Start | End |
---|---|---|---|---|
Ext Rec. 1 | BBC ONE 1 | Wed 26 Oct 2011 | 19:30 | 20:00 |
Ext Rec. 2 | Das Erste | Thu 27 Oct | 19:30 | 20:00 |

Guide link programming (Timer Programming from the TV Guide signal)  
UK only

Guide link programming is Timer Programming which is controlled by information from the TV Guide; if programme start and end times are changed by the broadcaster, the timer programming event will follow the change.

Guide link programming is Timer Programming which is interrupted by one or more other programmes.

"S/P" is displayed if the timer is set from the TV Guide and the programme is a Split Programme

“Guide” is displayed if the timer is set from the TV Guide (Guide link programming)

Note

- This function is not available in Analogue mode.
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- No other channel can be selected while the recording of Timer Programming is in progress.
- When recording programmes to the external recorder, be sure to make the proper settings on the recorder connected to the TV.

If a compatible recorder with Q-Link, VIERA Link or similar technologies is connected to the TV (p. 76, 77) and [Link Settings] (p. 37) are completed, no setting of the recorder is required. Also read the manual of the recorder.

Example: (UK)

If Timer Programming is set as the Guide link programming.

If you edit the start time or end time of a Guide link programming event by more than 10 minutes, it will no longer follow the broadcaster’s changes to the start or end time. The start and end times will become fixed.

While making the Split Programme programming event for [Ext Rec.], you cannot record any channels between the interrupted programmes.

The Split Programme programming event for Reminder will be cleared by pressing the OK button once to view.

The Split Programme programming event for Reminder will switch to the programmed channel by pressing the OK button even if it is between the interrupted programmes.

The Split Programme programming does not work if the separated parts are broadcast on different channels.

Note

This function is not available in Analogue mode.
Viewing Teletext

You can enjoy news, weather forecasts and subtitles, etc. (depending on the broadcaster)
- The availability of teletext services for a programme is indicated by [TEXT] in the information banner.

![Information banner](p. 20)

Displayed if programme has teletext service

Depending on the broadcaster, the digital teletext (MHEG) services may not be available. In this case, the operation of the teletext services may be the same as the analogue teletext services (p. 27).

Digital teletext (MHEG)

Digital teletext services differ greatly from analogue teletext.
When you switch to a digital teletext service, the images you see can contain graphics and text, laid out and controlled in a manner decided by the broadcaster.

- DVB programmes have digital teletext services (MHEG).

![Select DVB](p. 19)

![Switch to Teletext](TEXT)

**How to operate services**

In all cases, it is possible to navigate the pages using buttons on the remote control, but because the commands available must apply to all manufacturers of digital equipment, some on-screen commands may not correspond exactly to the remote control buttons.

- Select, go
- Symbol: ▼▼▼

- Back key
- Coloured characters
- When options with numbers are displayed

**Note**

- As soon as you switch to a digital channel with links to a teletext service, software is downloaded in the background to enable the teletext function. This means that when switching to a digital channel, you should wait for approximately 5 seconds before pressing the TEXT button - this will allow the software to download. If you press the TEXT button before download is complete, it will be ignored and you will have to press the TEXT button again when the download is complete.
- While navigating digital teletext, you will find there is a short delay when moving between pages while the page downloads. There is often a prompt shown somewhere on the page (for example “Loading”) to let you know that this is happening.
Analogue teletext

Teletext services are the text information provided by the broadcasters. The features may vary depending on the broadcasters.

What is FASTEXT mode?
In FASTEXT mode, four differently coloured subjects are situated at the bottom of the screen. To access more information about one of these subjects, press the appropriate coloured button. This facility enables fast access to information on the subjects shown.

What is List mode?
In List mode, four differently coloured page numbers are situated at the bottom of the screen. Each of these numbers can be altered and stored in the TV’s memory. “Store frequently viewed pages” (p. 28)

To change mode [Teletext] (p. 38)

Switch to Teletext

Displays the index page (content varies depending on the broadcasters).

Select the page

or

Coloured button (Corresponds to the colour bar)

To adjust contrast

As the blue bar is displayed

Reveal hidden data

Reveal hidden words e.g. quiz page answers

Press again to rehide.

INDEX

Return to the main index page

Subtitles

View a favourite page stored

Factory setting is “P888” (subtitle service) on the blue button (List mode).
Viewing Teletext

View in multi window

Watch TV and Teletext in two windows at once

- Operations can be made only in Teletext screen.
- Each time pressed: Teletext → TV and Teletext → TV

Store frequently viewed pages

Store frequently viewed pages in the colour bar (List mode only)

As page is displayed

- Enter new page number

- Press and hold

To change stored pages

Coloured button you want to change

- Enter new page number

- Press and hold

View sub page

View sub page (Only when Teletext is more than one page)

- The number of sub pages varies depending on the broadcasters (up to 79 pages).
- It may take some time for searching, during which time you can watch TV.

To view specific sub page

Enter the 4-digit number

Example: P6

Watch TV while waiting for update

View the TV picture while searching for a teletext page

Teletext automatically updates itself when new information becomes available.

- The news page provides a function that indicates arrival of the latest news (“News Flash”).
Watching External Inputs

Connect the external equipment (VCRs, DVD equipment, etc.) and you can watch through the input.

- To connect the equipment ⇒ (p. 11 - 13, 82 - 84)
- The remote control is capable of operating the contents or external equipment.

1. **Turn the TV on**

   - When connecting with SCART (p. 12)
     - Receives input signals automatically when playback starts
     - Input signals are automatically identified by the SCART (pin 8) terminal.
     - This function is also available for HDMI connections (p. 82).
   
   **If input mode is not switched automatically**
   - Perform 2 and 3
   - Check the setup of the equipment.

2. **Display the input selection menu**

   - **Display the input selection menu**
   - **Select the input mode connected to the equipment**

3. **Select the input mode connected to the equipment**

   - You can also select the input using the AV button on the remote control or the TV (except [SD Card/USB]).
   - Press the button repeatedly until the desired input is selected.
   - To switch between [COMPONENT] and [VIDEO] in [AV2], move the indicator by pressing left and right cursor button.
   - [SD Card/USB]: Switches to Media Player. ⇒ “Using Media Player” (p. 57)
   - You can label or skip each input mode (except [SD Card/USB]). ⇒ “Input Labels” (p. 38)
   - Skipped inputs will not be displayed when the AV button is pressed.

4. **View**

   - Displays the selected mode

<table>

### How to change the code

Each type of the Panasonic equipment has its own remote control code. To use in some features of this TV, you have to select the code “73”. Change to the appropriate code according to the equipment or features below.

**Press and hold [Power] during the following operations**

Enter the appropriate code, see table below<br>Press [Power]

<table>
<thead>
<tr>
<th>Type of the equipment, features</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>DVD Recorder, DVD Player, Blu-ray Disc Player</td>
<td>70 (default)</td>
</tr>
<tr>
<td>Player theatre, Blu-ray Disc theatre</td>
<td>71</td>
</tr>
<tr>
<td>VCR</td>
<td>72</td>
</tr>
<tr>
<td>Media Player (p. 58), DLNA features (p. 70) or Direct TV Recording (p. 76, 78) &lt;br&gt;Equipment using in VIERA Link (p. 79)</td>
<td>73</td>
</tr>
</tbody>
</table>

### Note

- Confirm if the remote control works correctly after changing the code.
- The codes may be reset to default values if batteries are replaced.
- Some operations may not be possible on some equipment models.
How to Use VIERA TOOLS

You can access some special features easily by using the VIERA TOOLS function.

- For [VIERA Link] function to operate correctly, ensure the connections and settings are completed.
  - “Summary of Q-Link and VIERA Link features” (p. 74), “Preparations” (p. 77)
  - After connection, turn the equipment on and then switch the TV on.
- For [Photo], [Video] and [Music] functions to operate correctly, ensure the device has photo, video or music data on it and insert it into the SD Card slot or USB port properly. - “Using Media Player” (p. 57)

1. Display icons of the feature
2. Select a feature

To return to TV
EXIT or VIERA TOOLS

Follow the operations of each feature

- [VIERA Link] (p. 79)
- [Photo]* (p. 59)
- [Video]* (p. 62)
- [Music]* (p. 64)
- [Media Server]* (p. 70)

* When two or more available devices are connected, a selection screen will be displayed. Please select the correct description and access.

Note

- If the selected feature is not available, the demonstration to explain how to use it can be displayed. Press the OK button to view the demonstration after selecting the unavailable feature.
How to Use Menu Functions

Various menus allow you to make settings for the picture, sound, and other functions.

1. **Display the menu**
   - Displays the functions that can be set (varies according to the input signal).

2. **Select the menu**
   - Main Menu
   - Picture
   - Sound
   - Network
   - Timer
   - Setup

3. **Select the item**
   - Viewing Mode: Dynamic
   - Contrast
   - Brightness
   - Colour
   - Sharpness
   - Tint
   - Colour Balance: Warm, Cool
   - Vivid Colour: Off
   - C.A.T.S.: Off

**Choose from among alternatives**
- Colour Balance: Cool, Normal, Warm

**Adjust using the slide bar**
- Sharpness: Moved

**Go to the next screen**
- Child Lock: Access

**To return to TV at any time**
- EXIT

**To return to the previous screen**
- BACK/RETURN

**To change menu pages**
- up
- down

**Enter characters by free input menu**
- You can enter names or numbers freely for some items.

**To reset the settings**
- Picture or sound settings only
  - [Reset to Defaults] in the Picture Menu (p. 34) or Sound Menu (p. 36)
- Picture and sound settings together
  - Picture and sound settings together
  - (Also volume level and aspect mode are reset)
- To initialise all settings
  - [Shipping Condition] (p. 39)

**Note**
- If “Demo Settings” item is displayed in the Setup Menu, the TV is in “Shop” viewing environment. To return to “Home” viewing environment initialise all settings by accessing Shipping Condition. (p. 51)

### How to Use Menu Functions

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (alternatives)</th>
</tr>
</thead>
</table>
| **Picture**| Clear Cinema                  | Improves vertical resolution for movie images [Off] / [On]  
- This function is available for the interlaced signal (except in the mode of PC, VIERA Connect or when [Viewing Mode] is set to [Game]).  
- [16:9 Overscan](#):  
  - [Off]:  
    - Displays the image in the original size.  
    - [On]:  
      - Enlarges the image to hide the edge of the image.  
      - Set to [On] if noise is generated on the edge of the screen.  
      - This function is available when aspect is set to [Auto] (16:9 signal only) or [16:9].  
      - This function can be memorised separately for SD (Standard definition) and HD (High definition) signals.  
      - Not valid on PC mode or VIERA Connect  
- **DVI Input Setting**:  
  - Changes the black level of the image for HDMI input mode with DVI input signal manually [Normal] / [Full]  
  - When the DVI input signal from the external equipment (especially from PC) is displayed, the black level may not be suitable. In this case, select [Full].  
  - The black level for HDMI input signal will be adjusted automatically.  
  - For HDMI input mode with DVI input signal  
- **Reset to Defaults**:  
  - Press the OK button to reset the current Picture Viewing Mode to the default settings  
- **Sound** | **Mode**:  
  - Selects your favourite sound mode [Music] / [Speech] / [User]  
  - The selected mode affects all input signals.  
  - [Music]:  
    - Improves sound quality for watching music videos, etc.  
  - [Speech]:  
    - Improves sound quality for watching news, drama, etc.  
  - In Music and Speech modes, you can adjust [Bass] and [Treble] settings, and those settings will be stored for each mode.  
  - [User]:  
    - Adjusts the sounds manually by using the equaliser to suit your favourite sound quality.  
    - For the User mode, [Equaliser] will appear on the Sound Menu instead of [Bass] and [Treble]. Select [Equaliser] and adjust the frequency.  
  - [Equaliser] (p. 34)  
- **Bass**:  
  - Adjusts level to enhance or minimise lower, deeper sound output  
- **Treble**:  
  - Adjusts level to enhance or minimise sharper, higher sound output  
- **Equaliser**:  
  - Adjusts the frequency level to suit your favourite sound quality  
  - This function is available when [Mode] is set to [User].  
  - Select the frequency and change the frequency level by using the cursor button.  
  - To enhance the bass sound, raise the level of the lower frequency. To enhance the treble sound, raise the level of the higher frequency.  
  - To reset the levels of each frequency to the default settings, select [Reset to Defaults] by using the cursor button, and then press the OK button. |

## TV Guide Settings

### TV Guide View
Changes the layout of TV Guide [Normal] / [Full] / [Info]
- **[Normal]**: Default TV Guide screen
- **[Full]**: Displays channels and programmes full-screen without the operation guide
- **[Info]**: Displays details of the selected programme at the bottom without the operation guide

### Eco Navigation
Automatically sets the TV to the most suitable energy-saving mode
- If you press the OK button, the following items are set as below:
  - [C.A.T.S.], [VIERA Link], [Standby Power Save], [Power Save] ➔ [On]
  - [Intelligent Auto Standby] ➔ [On (No reminder)]
  - [Auto Standby] ➔ [2 hours]

## Setup

### VIERA Link
Sets to use VIERA Link functions [Off] / [On] (p. 77)

### HDMI Content Detection
Automatically adjusts the picture settings according to the received HDMI content via HDMI cable [Off] / [Auto]
- This function is available if the connected equipment supports HDMI Content Type.
- The content type information will be displayed for several seconds when this function works.

### AV1 out
Chooses the signal to be transmitted from the TV to Q-Link
  - **[Monitor]**: Image displayed on screen
  - Component and HDMI signals cannot be output.

### Standby Power Save
Controls the connected equipment to reduce power consumption in Standby
- **[Off] / [On]** (p. 78)
  - This function is available when [VIERA Link] is set to [On].

### Intelligent Auto Standby
Makes non-watched or non-used connected equipment go into Standby mode to reduce the power consumption
- **[Off] / [On (With reminder)] / [On (No reminder)]** (p. 78)
  - This function is available when [VIERA Link] is set to [On].

### Q-Link Download
Downloads analogue channel information to a Q-Link compatible equipment connected to the TV

### Child Lock
Applies access control for channels or inputs to prevent unwanted access (p. 50)

### Favourites Edit
Creates a list of favourite channels (p. 45)
- Not valid on Analogue mode

### Channel List
Skips the unwanted channels or edits channels (p. 46)

### Auto Setup
Automatically searches for the receivable channels (p. 44)

### Channel Sorting by Region
Automatically sorts tuned channels according to the available region (p. 46)
- For DVB mode

### Manual Tuning
Searches for the channels manually (p. 47)
<table>

Retuning from Setup Menu

Automatically retune the channels received in the area.
- This function is available if channel tuning is already performed.
- Only the selected mode is retuned. All the previous tuning settings are erased.
- If Child Lock PIN number (p. 50) has been set, the PIN number is required.
- If tuning has not been done completely ⇒ [Manual Tuning] (p. 47)

DVB or Analogue channels

1. Select the mode ⇒ (p. 19)

2. Display the menu and select [Setup]

3. Select [DVB Tuning Menu] or [Analogue Tuning Menu]

4. Select [Auto Setup] Example:

5. Start Auto Setup (Settings are made automatically) Example: DVB

Example: Analogue

- The analogue settings are downloaded to a Q-Link compatible equipment connected to the TV in Analogue mode.

When the operation is completed, the channel at the lowest position will be displayed.
Auto setup using the buttons on the TV

For Auto Setup, using the buttons on the TV (p. 10)

1. Press the F button repeatedly until [Auto Setup] appears.
2. Access [Auto Setup].
3. Start [Auto Setup].

Tuning and Editing Channels

You can retune channels or make your favourite channel lists, skip unwanted channels, etc.

1. Select the mode
   (p. 19)

2. Display the menu and select [Setup]

3. Select [DVB Tuning Menu] or [Analogue Tuning Menu]

4. Select one of the following functions

List favourite DVB channels [Favourites Edit]

Create your favourite channel lists from various broadcasters (up to 4: [Favourites]1 to 4).

1. Select a channel to list (encrypted channel)

2. Add it to the Favourites list

To display other Favourites (green)

To add all channels to the list (yellow)

- To delete the channel
  Select the turn
  Store (green)

- To use numeric buttons ⇒ (p. 92)

To name the Favourites
Set characters (maximum 10 characters)
User input
Name
Select
set
Store

Note
- Channel position numbers (known as logical channel numbers) can be swapped in Channel List. To swap the channel position number ⇒ [Channel List] (see below)

Skip unwanted channels, Edit Channels [Channel List]
You can hide (skip) unwanted channels. The hidden channels cannot be displayed except in this function.

Select a channel and reveal / hide
Example: DVB

All DVB Channels

- 70 CBBC Channel
- 72 Cartoon Nwk
- 105 BBC
- 719 BBC Radio Wales
- 720 BBC Radio Cymru
- 1 BBC One Wales
- 7 BBC THREE

To reveal all channels

Note
- If a VCR is connected only with the RF cable in Analogue mode, edit [VCR].

Sort DVB channels according to the region [Channel Sorting by Region] (UK only)
You can sort DVB channels so that those with the best signal quality, or those for your preferred region, appear nearer the top of your Channel List.

Normally, you should select [Best signal quality (All Regions)].

- If you choose to select your preferred region, you could find channels with a weaker signal appear nearer the top of your Channel List. If you have any image or sound problems, select [Best signal quality (All Regions)] instead.
Set DVB channel manually [Manual Tuning]

Normally use [Auto Setup] or [Update Channel List] to retune DVB channels. If tuning has not been done completely or for adjusting the direction of the aerial, use this function.

1 Adjust frequency for each channel  2 Search

1 select frequency  2 search

Set where the level of [Signal Quality] becomes the maximum.

All channels found will be added to the Channel List.

Set Analogue channel manually [Manual Tuning]

[Fine Tuning]: Use to make small adjustments to the tuning of an individual programme (affected by weather conditions, etc.). [Ireland only]

[Manual Tuning]: Set Analogue channel manually after Auto Setup.

If a VCR is connected only with the RF cable, select channel position [0].

Example: [Ireland]

Update DVB channel automatically [Update Channel List]

You can add new channels, delete removed channels, update channel name and position automatically to the channel list.

Example: [UK]

Display a notification message [New Channel Message] (DVB)

Selects whether to give a notification message when a new DVB channel is found.

Check DVB signal [Signal Condition]

Selects a channel and checks the DVB signal condition.

A good Signal Strength is not an indication of suitable signal for DVB reception.

Use the Signal Quality indicator as follows.

Green bar: Good
Yellow bar: Poor
Red bar: Bad (Check the Terrestrial aerial)

Example: [UK]

These bars show the maximum signal value of the selected channel.
Timer Programming

Timer Programming from Menu

The Timer Programming menu allows you to choose programmes that you want to remind watching or record to the external recorder. At the correct time, the TV will tune to the correct channel even if the TV is in Standby mode. TV Guide may also be used to set timer programming event (p. 24).

- Timer Programming can store up to 15 events.
- Timer Programming only works reliably if correct time information is received via the signal from the broadcaster or service provider.
- For recording using Timer Programming, the TV must be either on or in Standby. For reminders to be displayed, the TV must be on.
- No other channel can be selected while the recording of Timer Programming is in progress.
- Recording an encrypted (copy-protected) programme may not be possible.

For recording to the external equipment via SCART is always in standard definition (composite video), even if the original programme is in high definition.

2 minutes before the starting time, a reminder message appears if you are watching TV.

- To remove the message and start the programming
- To cancel the programming

1 Select the tuner you want to use (DVB or Analogue)

2 Display the menu and select [Timer]

3 Select [Timer Programming]

Set timer programming event details

1 Start making the settings

2 Select the function ([Ext Rec.] or [Reminder])

[Ext Rec.] : Records the programme to the external recorder. When the start time comes, the channel will be switched automatically and the video and audio signals will be output. 2 minutes before the starting time, a reminder message appears if you are watching TV.

[Reminder] : Reminds you to watch the programme. When you are watching TV, a reminder message appears 2 minutes before the start time. Press the OK button to switch to the programmed channel.

3 Set the channel, date and time (repeat the operations as below)

Set items in the order of 1 to 4.

• 1, 3 and 4 can also be entered with numeric buttons.
Timer Programming

- Overlapped timer programming events
  - Guide link programming - Programmes according to the TV Guide signal (p. 25)
  - Split Programme programming (p. 25)

- Guide link programming is Timer Programming which is controlled by information from the TV Guide; if programme start and end times are changed by the broadcaster, the timer programming event will follow the change.

- A Split Programme programming is a Guide link programming which is interrupted by one or more other programmes. Note that Guide link programming (including Split Programme programming) only works reliably if correct information is received from broadcasters.

**To edit a timer programming event**

Select the event

- To change a timer programming event

  ![Correct as necessary](p. 48)

- To delete a timer programming event

  ![red](p. 48)

**To unlock the tuner and stop recording**

- Press again to return to Timer Programming menu.

  ![EXIT](p. 48)

**Note**

- Check that the LED is orange. If not, timer programming events are not active or not stored.
- Timer Programming reminder messages will remain displayed until one of the following occurs:
  - You press the OK button to view the programme or the EXIT button to cancel the reminder.
  - The timer programming event that the reminder is set for ends.
- "!" identifies that two or more timer programming events are overlapped. [Ext Rec.] is given priority over [Reminder]. As for the overlapped recording events, the first event starts and finishes as programmed. The next event can then start.
- The recording of Timer Programming will automatically change to the programmed channel a few seconds before the start time.
- To stop recording the timer programming event, it may be necessary to stop the recorder manually.
- The recording of Timer Programming will be performed even if the TV is in [Pause Live TV] recording (p. 79). In this case, [Pause Live TV] recording will be cancelled.
Child Lock

You can lock specific channels / AV input terminals and control who watches them. When the locked channel / input is selected, a message appears. Enter the PIN number to watch.

1. Display the menu and select [Setup]
   - Select the menu and access [Setup].

2. Select [Child Lock]
   - Select the menu and access [Child Lock].

Control channel audience [Child Lock]

1. Enter the PIN number (4 digits)
   - Enter the PIN number twice at first setting.
   - Make a note of the PIN number in case you forget it.

2. Select [Child Lock List]
   - Select the menu and access [Child Lock List].

3. Select the channel / input to be locked
   - Select the locked channel / input.
   - To lock all
     - (green)
   - To cancel all locks
     - (yellow)
   - To jump to the top of the next input
     - (blue)

   - In DVB mode, additional lock item will appear. [UK only]
   - [Freeview Players]: Applies access control for some MHEG services.

To change the PIN number

1. Select [Change PIN]
   - Select the menu and access [Change PIN].

To set Parental Rating [Ireland only]

To watch the DVB programme that has the rating information over the selected age, enter the PIN number to watch (depending on the broadcaster).

Select [Parental Rating] and set an age for the restriction of programmes.

Note

* Setting [Shipping Condition] (p. 51) erases the PIN number and all settings.
Shipping Condition

Resets the TV to its original condition, i.e. no channels tuned in.
All settings other than [Owner ID] are reset (channels, picture, sound settings, etc.).
* To retune TV channels only, e.g. after moving house ⇒ “Retuning from Setup Menu” (p. 44)

1 Display the menu and select [Setup]

2 Select [System Menu]

3 Select [Shipping Condition]

Restore Settings [Shipping Condition]

1 Check the message and initialise

2 Follow the on-screen instructions

Reset to Factory Shipping Condition
Completed.
TV will automatically restart.
Do not turn off

* [Auto Setup] will automatically start.
(p. 14)
Owner ID

Entry of the PIN number and personal information (your name, address and postcode).
In the unfortunate event of theft, the Owner ID will help the Police to determine the owner.

1. Display the menu and select [Setup]

2. Select [System Menu]

3. Select [Owner ID]

Input owner ID [Owner ID]

1. Enter the PIN number (4 digits)

   Owner ID
   Please enter new PIN
   PIN *
   * *
   * *
   * *

   - Make a note of the PIN number in case you forget it. The PIN number cannot be reset.

2. Select the item (NAME / HOUSE NO / POSTCODE) and set characters

   Owner ID-Data Entry
   PIN * * *
   NAME *
   HOUSE NO *
   POSTCODE *

   - To use numeric buttons ⇒ (p. 92)

3. Exit the menu

To check the personal information stored

Hold down for about 5 seconds

To change the PIN number

1. Select [PIN]

2. Enter a new PIN number twice
Using Common Interface

The Common Interface Module menu provides access to software contained on Common Interface (CI) Modules. This TV works only for Pay TV modules complying with CI standard.

- This function is not available for BskyB’s Sky channels.
- Video and audio signals may not be output depending on broadcasts or services.

**Caution**
- Turn off Mains power On / Off switch whenever inserting or removing the CI module.
- If a view card and a card reader come as a set, first insert the card reader, then insert the view card into the card reader.
- Insert the module in the correct direction.
- Remove the CI module from the TV when placing the TV facing upward. This may cause damages to the CI module and CI slot.

**Insert the CI module (optional)**
- The features that appear on screen are dependent on the contents of the selected CI module.
- Follow the instructions that came with the viewing card to tune in the encrypted channels. If encrypted channels do not appear, perform the below to verify the card is recognised by the TV.
- For more details, read the manual of the CI module, or check with the broadcaster.

1. **Select DVB**
   \(\Rightarrow (p. 19)\)

2. **Display the menu and select [Setup]**

3. **Select [System Menu]**

4. **Select [Common Interface]**

5. **Access Common Interface and follow the on-screen instructions**

*On-screen instructions may not correspond to the remote control buttons.*
Updating the TV Software

A new version of software may be released for download to enhance the performance or operations of the TV. In DVB mode, a notification banner will appear when one of the BBC channels is turned to if a new available software is found.

To download

(Press the EXIT button not to download)

You can update new software automatically or update manually.

1. Display the menu and select [Setup]

2. Select [System Menu]

3. Select [System Update]

Update TV’s software system [System Update]

- To update automatically
  Select [Auto Update Search in Standby]

  * Automatically performs a search in standby and downloads an update, if any software updates are available.
  * The automatic updating is performed at night under the following conditions:
    - Standby (TV turned off with the remote control)
    - Recording of Timer Programming or Direct TV Recording is not in progress.

- To update immediately
  1. Select [System Update Search Now]
  2. Searches for an update (for several minutes) and displays a corresponding message if any
  3. Download

Note

- Download may take up to 60 minutes.
- During software download and update, DO NOT perform any operations on the TV or switch Off the TV.
Displaying PC Screen on TV

The screen of the PC connected to the TV can be displayed on the TV. You can also listen to PC sound with the audio cable connected.

To connect PC (p. 82)

1. Select the external input

   - AV

2. Select [PC]

   - Input Selection
     - AV1
     - AV2
     - PC
     - HDMI1
     - HDMI2
     - HDMI3
     - HDMI4
     - TV
     - SD Card/USB

   ![Select](select.png)
   ![Access](access.png)

   - Corresponding signals (p. 91)
   - If [H-freq.] or [V-freq.] is shown in red, the signals may not be supported.

PC menu setting

To make settings "How to Use Menu Functions" (p. 32)

<table>
<thead>
<tr>
<th>Menu</th>
<th>Item</th>
<th>Adjustments / Configurations (options)</th>

Using Media Player

Media Player allows you to enjoy photo, video or music recorded on an SD Card and a USB Flash Memory. VIERA IMAGE VIEWER is the function of the easy viewing for photos or videos recorded on an SD Card on the TV screen by simply inserting into the SD Card slot.

Photo mode:
Still pictures recorded by digital cameras will be displayed.

Video mode:
Moving pictures recorded by digital video cameras will be played back.

Music mode:
Digital music data will be played back.

During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 37). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 75) and set to use theatre speakers (p. 81).

[Date] shows the date on which the recording was made by the recording equipment. The file without record of the date is shown "**/**/****".

The picture may not appear correctly on this TV depending on the recording equipment used.

Display may take some time when there are many files and folders.

Partly degraded files might be displayed at a reduced resolution.

Picture setting may not work depending on the conditions.

The folder and file names may be different depending on the digital camera or digital video camera used.

To insert or remove the SD Card / USB Flash Memory

USB Flash Memory
- Insert or remove straightly and completely.
- Connect the USB Flash Memory to the USB 1 or 2 port.

SD Card
- Gently insert the SD Card with the label surface facing front.
- Push until a click is heard. To remove, push it again.

For the information of the devices ⇒ “Devices for recording or playing back” (p. 89)
For the supported file format ⇒ “Supported file format in Media Player and media servers” (p. 86, 87)
Starting Media Player

1. Insert the SD Card or USB Flash Memory to the TV  
(p. 57)

2. Confirm the message and start Media Player
   - You can also start by pressing following button.
     ![AV]  “Watching External Inputs” (p. 29)

3. Select the device to access
   - If two or more devices are not connected, this step will be skipped.

4. Select the content
   - [Photo] (p. 59)
   - [Video] (p. 62)
   - [Music] (p. 64)

5. Enjoy Media Player
   - Example: Thumbnail - [All photos]

   ![Thumbnail View]

   - To display the information of the highlighted content
   - File number / Total file number

   File name: p1010001.JPG
   Date: 23/10/2011
   Size: 1600x1200

   ![Selected device name]

   ![Thumbnail View]

   Note
   - You can also access each mode directly by using VIERA TOOLS. (p. 31)
   - Select the appropriate device and content for playing back each file.
   - You can use the following buttons during playback. Set the code of the remote control to “73” (p. 30).

   ![Playback Buttons]

Change the device

You can change to the other device directly in the same mode if two or more devices are connected.

1. While the thumbnail is displayed, display the device selection
   - (yellow)

2. Select the device to access
   - ![Select device]
   - Selected device name

Change the contents

You can switch to the other mode of Media Player from the thumbnail view.
   - The mode can be switched in the current device.

1. While the thumbnail is displayed, display the contents selection
   - (blue)

2. Select the contents
   - ![Select contents]
   - Selected device name
Photo mode

Photo mode will read all ".jpg" extension files in the SD Card or USB Flash Memory.

The thumbnail of all the photos in the SD Card or USB Flash Memory will be displayed.

Example: Thumbnail - [All photos]

- To change the size of photos on a thumbnail screen
  - OPTION
  - ① select [Change Size]
  - ② change

- Error display

[Single view] - Photos are displayed one at a time.
Select the file from the thumbnail of photos to be viewed

- To display / hide the operation guide
- To return to thumbnail

Example:

- To display / hide the operation guide
- To return to thumbnail

[Slideshow] - Slideshow completes when all photos are viewed within the current thumbnail.

1 Select the file from the thumbnail of photos for the first view
2 Start Slideshow

- To display / hide the operation guide
- To return to thumbnail

- To pause (return to Single view)
- To return to thumbnail

- To change the background music “Photo Settings” (p. 60)

To sort by folder, recorded date or recorded month

1 Display the view selection in the thumbnail view
2 Select the sort type

- [Folder view]:
  - Displays the thumbnail grouped by folder.
  - The files which are not into a folder will be collected to the folder named “/”.

- [Sort by Date] / [Sort by Month]:
  - Displays the thumbnail grouped by the same date or month.
  - The group of the photos without a recorded date is shown as [Unknown].

- To return to the thumbnail of all photos

- To rotate 90° (blue)
**Photo Settings**

Setup the settings for Photo mode.

1. **Display the option menu**
   - Option Menu
     - Slideshow Settings

2. **Select [Slideshow Settings]**

3. **Select the items and set**
   - Slideshow Settings
     - Frame
     - Colour Effect
     - Transition Effect
     - Aspect
     - Burst Playback
     - Interval
     - Repeat
     - Back Ground Music

---

Using Network Services
(DLNA / VIERA Connect)

DLNA®

This TV is a DLNA Certified™ product.

DLNA (Digital Living Network Alliance) is a standard that makes DLNA Certified digital electronics easier and more convenient to use on a home network. To learn more, visit www.dlna.org.

It allows you to share photos, videos and music stored in the DLNA Certified media server (for example, PC with Windows 7 installed, DIGA Recorder etc.) connected to your home network, and enjoy the contents on the TV screen.

It also allows you to control the TV with the DLNA Certified equipment connected to your home network. (DLNA Remote Control)

- For the supported file format (p. 86, 87)
- AVCHD and DivX files are not supported by DLNA functions of this TV, but can be played by Media Player (p. 57).

Media server

Store photos, videos or music into the DLNA Certified media server, and then you can enjoy them on the TV.

To use a PC as a media server

Prepare the PC with Windows 7 or ensure the server software is installed on the PC. “Windows 7” and “TwonkyMedia server 6 (installed on the PC with Windows 7, Windows Vista or Windows XP)” are the server software that has been tested for compatibility with this TV (as of January, 2011). Any other server software have not been tested with this TV, therefore compatibility and performance cannot be assured.

- Windows 7
  - The setup for homegroup settings of Windows 7 is required. For details, refer to the help functions of Windows 7.
- TwonkyMedia server
  “TwonkyMedia server” is the product of PacketVideo Corporation.
  To obtain the Installation Guides for installing and setting “TwonkyMedia server”, visit the website of TwonkyMedia. Additional fees may be charged to obtain server software.

  Note

- For more information about the server software, please consult each software company.
- When server software for the media server is installed on the PC, the data may be at risk of being accessed by other people. Please take care of the settings and connections under the network circumstances at the office, hotel or even at home when not using a router.

To use a DLNA compatible DIGA Recorder as a media server

By connecting a DLNA compatible DIGA Recorder to your home network, you can enjoy and control it as one of the media servers.

- Please read the manual of your DIGA Recorder to confirm whether the recorder is compatible with DLNA.

DLNA Remote Control

You can control the TV with the DLNA Certified equipment.

- To use this function, set [Network Link Settings] (p. 67)
- “Windows 7” is the OS that has been tested for compatibility of this TV (as of January, 2011). For the operations, refer to the help functions of Windows 7.

Network connection ⇒ “Example 1”, “Example 2” (p. 66)

Network setup ⇒ (p. 67 - 70)

DLNA operations ⇒ (p. 70 - 73)

VIERA Connect

VIERA Connect is a gateway to the internet services unique to Panasonic.

VIERA Connect allows you to access some specific websites supported by Panasonic, and enjoy internet contents such as videos, games, EPG, communication tools, etc. from VIERA Connect home screen.

- This TV does not support full web browser function and some features of the websites may not be available.

Network connection ⇒ “Example 1”, “Example 3” (p. 66)

Network setup ⇒ (p. 67 - 70)

VIERA Connect operations ⇒ (p. 18, 73)
Network connections

To use only DLNA features, you can operate the features without broadband network environment.
To use VIERA Connect features, you need a broadband network environment.
- If you do not have any broadband network services, please consult your retailer for assistance.
- Set up and connect any equipment required for the network environment. You cannot make settings for the equipment on this TV. Read the manual of the equipment.
- Required speed (effective): at least 1.5 Mbps for SD and 6 Mbps for HD picture quality, respectively. If the transfer speed is not enough, contents may not be played back properly.

Example 1
(For DLNA and VIERA Connect)

Wireless connection

Ensure to use a LAN straight cable for this connection.
- If your modem has no broadband router functions, use a broadband router.
- If your modem has broadband router functions but there are no vacant ports, use a hub.
- Ensure that the broadband routers and hubs are compatible with 10BASE-T / 100BASE-TX.
- If you use the equipment compatible only with 100BASE-TX, category 5 LAN cables are required.

Example 2
(For DLNA)

You can connect the TV and the equipment directly to use DLNA features.

Ensure to use a LAN cross cable for this connection.

Example 3
(For VIERA Connect)

You can connect the TV and the telecommunication equipment directly to use VIERA Connect features.

Note

- Contact your Internet Service Provider (ISP) telecommunications company for further assistance regarding the network equipment.
- Confirm the terms and conditions of the contracts with your Internet Service Provider (ISP) or telecommunications company. Depending on the contracts, additional fees may be charged or multiple connections to the internet may be impossible.
**Network Setup**

- Ensure the connections are completed before starting Network Setup.
  ➔ “Network connections” (p. 66)

1. **Display the menu and select [Network]**

   - Display the menu and select [Network]

2. **Network Link settings**

   Sets the link settings to control this TV from the network equipment via the network.

   1. **Select [Network Link Settings]**

   2. **Select the items and set**

     **Menu** | **Item** | **Adjustments / Configurations (alternatives)**
     --- | --- | ---
     Network Link Settings | VIERA Name | Sets your favourite name for this TV
     | | ➔ This name will be used as the name of this TV on the screen of the other network equipment.
     | DLNA Remote Control | Enables to control the TV using Windows 7 via the network [Off] / [On]
     | DLNA Remote Volume | Enables to control the volume of the TV using Windows 7 via the network [Off] / [On]
     | Network Remote Control | Enables to control the TV from the network equipment (Smartphone, etc.) [Off] / [On]
     | | ➔ Depending on the area, this function may not be available. For details, consult your local Panasonic dealer.
     | | ➔ For more information of this function: http://panasonic.jp/support/global/cs/tv/

3. **Wired connection settings**

   This setting is for the network connection by using the LAN cable.

   1. **Select [Network Connection] and set to [Wired]**

   2. **Select [IP/DNS Settings] and set the items**

      - If you make the network connection like “Example 2” (p. 66), you do not have to set [Acquire DNS Address], [Proxy] and [Proxy Port].
**[Acquire IP Address] / [Acquire DNS Address]**
Sets [IP Address], [Subnet Mask], [Default Gateway], [Primary DNS] and [Secondary DNS]. Select [Acquire IP Address] / [Acquire DNS Address] and set to [Auto] (recommended).

### IP/DNS Settings

<table>
<thead>
<tr>
<th>IP/DNS Settings</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Acquire IP Address</td>
<td>Auto</td>
</tr>
<tr>
<td>IP Address</td>
<td></td>
</tr>
<tr>
<td>Subnet Mask</td>
<td></td>
</tr>
<tr>
<td>Default Gateway</td>
<td></td>
</tr>
<tr>
<td>Acquire DNS Address</td>
<td>Auto</td>
</tr>
<tr>
<td>DNS Address</td>
<td></td>
</tr>
<tr>
<td>Proxy Settings</td>
<td>Access</td>
</tr>
</tbody>
</table>

- The available settings are displayed automatically.

Manual settings ([IP Address], [Subnet Mask], [Default Gateway], [Primary DNS], [Secondary DNS])

- Select
- access / store

**3 Select [Proxy Settings] and set the items**

<table>
<thead>
<tr>
<th>IP/DNS Settings</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Acquire IP Address</td>
<td>Auto</td>
</tr>
<tr>
<td>IP Address</td>
<td></td>
</tr>
<tr>
<td>Subnet Mask</td>
<td></td>
</tr>
<tr>
<td>Default Gateway</td>
<td></td>
</tr>
<tr>
<td>Acquire DNS Address</td>
<td>Auto</td>
</tr>
<tr>
<td>DNS Address</td>
<td></td>
</tr>
<tr>
<td>Proxy Settings</td>
<td>Access</td>
</tr>
</tbody>
</table>

- After settings, return to the previous menu.

**[Proxy]**
Sets Proxy address.
- This is the address of the relay server that is connected to the target server instead of the browser and sends data to the browser. Setting is required if specified by the provider.

1. Select [Proxy]

2. Enter the address

3. Store

**[Proxy Port]**
Sets Proxy port number.
- This number is also specified by the provider with the Proxy address.

1. Select [Proxy Port]

2. Move the cursor and enter the number

**4 Select [Connection Test] and access to test**

- Performs automatic testing of the network connection for the TV. (It takes a while to test.)

- : succeeded
  The test is successful and the TV is connected to the network.

- : failed
  Check the settings and connections. And then select [Retry].

**Wireless connection settings**

This setting is for the wireless network connection.
- Confirm the encryption key, settings and positions of your access point before starting setup. For details, read the manual of the access point.

1. Select [Network Connection] and set to [Wireless]

- select
- access / store
2 Select [Wireless Network Settings]

- When the access point is already set, [Current Settings] screen will be displayed.
  To change the settings, select [No] on this screen and go to the next step.

3 Select your desired access point

- To search access points again (blue)
- For the information of the highlighted access point (green)
- To set manually (yellow)

4 Access the encryption key input mode

- If the selected access point is not encrypted, the confirmation screen will be displayed. It is recommended to select the encrypted access point.

5 Enter the encryption key of the access point

- You can set characters by using numeric buttons.
- After settings, return to the previous menu.

6 Select [Connection Test] and access to test

- Performs automatic testing of the network connection for the TV. (It takes a while to test.)

[WPS(PIN)]

Enter the PIN code to the access point, and then select [Connect]

- Check the settings and connections. And then select [Retry].
  If you continue to have difficulty, please contact your internet service provider.
Using Network Services (DLNA / VIERA Connect)

70 /g374 [Manual]

You can setup SSID, authentication type, encryption type, and encryption key manually. Follow the on-screen instructions and set manually.

Using DLNA® features

- Ensure the preparation of the media server, network connections and network settings are completed.
- “Media server” (p. 65), “Network connections” (p. 66), “Network Setup” (p. 67 - 70)

1 Display [VIERA TOOLS] and select [Media Server]

2 Select one of the media servers to access

Example: Media server list

Available media servers

Total listed number

3 Select the file

Example: File list

- Depending on the condition of media server, you may need to select the folder before selecting the file.
- To display the information of the highlighted file

Note
- Non-playable files are also listed but cannot be selected.
- Turn the TV off, and then on again when changing or reconnecting the network connection.
- You can use the following buttons during playback. Set the code of the remote control to “73” (p. 30).
For photo file

[Single view] - Photos are displayed one at a time.

Example:

Operation guide

- To display / hide the operation guide
- To operate Single view
  - To the previous photo
  - Slideshow
  - To the next photo
- Stop
  (return to list)

[Slideshow] - Slideshow completes when all photos are viewed within the list.

1. Select the photo file from the list for the first view
2. Start Slideshow

- To display / hide the operation guide
- To pause (return to Single view)
- To return to list

For video file

Playback - Playback will start.

- If you stopped the last playback on the way, the confirmation screen is displayed to select whether to start from where you stopped last time or from the beginning.

Example: Playback

Operation guide

- To display / hide the operation guide
- To operate the playback
  - Rewind
  - [Manual skip]
    - Press to skip forward about 30 seconds.
  - Pause (displays the time seek bar) / Playback
  - Fast forward
  - Stop
- To the previous content
  (red)
- To the next content
  (green)
- To return to list

For music file

Playback - Playback will start.

Example: Playback

Operation guide

- To display / hide the operation guide
- To operate the playback
  - Rewind
  - Pause / Playback
  - Fast forward
  - Stop
- To the previous track
  (red)
- To the next track
  (green)
- To return to list
For DIGA Recorder

Control the DIGA Recorder
The screen of the DIGA Recorder will be displayed. You can control the functions of the DIGA Recorder with this TV remote control according to the operation guide.
- Before operating, register this TV on the DIGA Recorder.
- For details, read the manual of the DIGA Recorder.

Option menu for each content
Setup the settings for Photo, Video and Music file operations.

 [One]: Playback repeat of the selected one file. |
Audio output settings (for video contents)

You can enjoy the multi-channel sound via an amplifier connected to DIGITAL AUDIO OUT or HDMI2 (ARC function) terminal.

To confirm or change the current sound status (p. 63)

1. Display the menu and Select [Sound]

Menu | Item | Adjustments / Configurations (alternatives)
--- | --- | ---
**Sound** | SPDIF Selection | SPDIF: A standard audio transfer file format
Selects the initial setting for digital audio output signal from DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals [Auto] / [PCM]
[Auto]: Dolby Digital Plus, Dolby Digital and HE-AAC multi-channel are output as Dolby Digital Bitstream. DTS is output as DTS. MPEG is output as PCM.
[PCM]: Digital output signal is fixed to PCM.

2. Select [SPDIF Selection] and set

VIERA Connect

You can access VIERA Connect and enjoy various network contents.

- VIERA Connect requires a broadband internet connection. Dial-up internet connections cannot be used.
- Ensure the network connections and network settings are completed. ⇒ “Network connections” (p. 66), “Network Setup” (p. 67 - 70)
- For details about VIERA Connect operation ⇒ (p. 18)

Setup & Help menu (Items in [Setup & Help] may change without notice.)

</tbody>
</table>

**Note**

- Be sure to update the software when a software update notice is displayed on the TV screen. If the software is not updated, you will not be able to use VIERA Connect.
- You can update the software later manually. ⇒ [Software Update] in [Network] (p. 70)
- VIERA Connect home screen is subject to change without notice.
- The services through VIERA Connect are operated by their respective service providers, and service may be discontinued either temporarily or permanently without notice. Therefore, Panasonic will make no warranty for the content or the continuity of the services.
- Some content may be inappropriate for some viewers.
- Some content may only be available for specific countries and may be presented in specific languages.
- Depending on the connection environment, the internet connection may be slow or may not be successful.
- During the operation, audio signal is output from AV1, DIGITAL AUDIO OUT and HDMI2 (ARC function) terminals. But no video signals are output. AV1 can output audio signal if [AV1 out] is set to [Monitor] in the Setup Menu (p. 37). To use HDMI2 with ARC function, connect an amplifier that has ARC function (p. 75) and set to use theatre speakers (p. 81).
- You can restrict access to VIERA Connect. ⇒ [Child Lock] (p. 50)
- Turn the TV off, and then on again when changing or reconnecting the network connection.
Link Functions (Q-Link / VIERA Link)

Q-Link connects the TV and DVD Recorder / VCR, and enables easy recording, playback, etc. (p. 76)

VIERA Link (HDAVI Control™) connects the TV and the equipment with VIERA Link function, and enables easy control, convenient recording, playback, energy saving, creating home theatre, etc., without complicated setting. (p. 77 - 81)

You can use Q-Link and VIERA Link functions together.

- This TV supports “HDAVI Control 5” function. But available features are depending on the connected equipment’s version of HDAVI Control. Please read the manual of the equipment to confirm the version.
- VIERA Link features may be available even with other manufacturers’ equipment supporting HDMI CEC.

Summary of Q-Link and VIERA Link features

### Q-Link (SCART connection)

Connection

- Use fully wired HDMI compliant cable.
- Connect the equipment supporting VIERA Link to the TV’s HDMI2, HDMI3 or HDMI4 terminal via an HDMI cable.
- Use fully wired SCART cable.
- If you use a SCART cable for audio output, connect the equipment supporting VIERA Link to the TV’s AV1 terminal and set [AV1 out] to [Monitor] in the Setup Menu (p. 37).
- Use the optical digital audio cable or SCART cable for audio output from the TV.

*1: Available with the equipment which has “HDAVI Control 2 or later” function.
*2: Available with the equipment which has “HDAVI Control 3 or later” function.
*3: Available with the equipment which has “HDAVI Control 4 or later” function.
*4: Available with a DIGA Recorder which has HDD.
*5: While playing a disc.
*6: Except for watching a disc.
*7: If the connected equipment has “HDAVI Control 5” function, you do not have to use this audio cable (Optical digital audio cable or SCART cable). In this case, connect the equipment to the TV’s HDMI2 terminal via an HDMI cable.

HD Video Camera / LUMIX Camera with VIERA Link function

- To use Player theatre / Blu-ray Disc theatre
- To use Amplifier

VIERA Link Control of compatible equipment ➤[VIERA Link Control] (p. 79)

- Table below displays maximum number of compatible equipment that can be controlled by VIERA Link Control. This includes connections to equipment already connected to the TV.
- For example, DIGA Recorder connected to Amplifier which is connected to the TV via an HDMI cable.

<table>
<thead>

Q-Link

Preparations
- Connect the DVD Recorder / VCR with the following logos: “Q-Link”, “NEXTVIEWLINK”, “DATA LOGIC (a trademark of Metz Corporation)”, “Easy Link (a trademark of Philips Corporation)”, “Megalogic (a trademark of Grundig Corporation)”, “SMARTLINK (a trademark of Sony Corporation)”
- Q-Link connection (p. 74)
- Use fully wired SCART cable.
- Set up the DVD Recorder / VCR. Read the manual of the recorder.
- Q-Link terminal setup in the Setup Menu [AV1 out] (p. 37)
- Download Analogue channel setting “Analogue channel download” (see below)

Features available

Analogue channel download
Analogue channel settings can be downloaded to a recorder with an analogue tuner (where Analogue is still broadcast). Digital channel settings are not downloaded.
- To download the Analogue channel settings
  ➤ [Q-Link Download] (p. 37), [Auto Setup] (p. 14, 44)

Direct TV Recording - What you see is What you record
Recording the current programme on a DVD Recorder / VCR immediately.
- Set the code of the remote control to “73” (p. 30).

</table>

- When Direct TV Recording is performed, the recorder is automatically turned on if it is in Standby mode.
- You can change channel or turn the TV off while the recorder is recording from its own tuner.
- Changing channel is not available while the recorder is recording from the TV tuner.

To stop recording
Unlock the tuner

Power on link and Easy playback
When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

Power off link
When TV is set to Standby mode, the recorder is also automatically set to Standby. (Only when the videocassette or disc is not active.)
- This function works even if the TV enters Standby mode automatically by auto power standby function.

Note
- Some recorders are not applicable. Read the manual of the recorder.
**VIERA Link “HDAVI Control”™**

*Enjoy additional HDMI Inter-Operability with Panasonic products which have “HDAVI Control” function.*

This TV supports “HDAVI Control 5” function.

Connections to the equipment (DIGA Recorder, HD Video Camera, Player theatre, Amplifier, etc.) with HDMI and SCART cables allow you to interface them automatically (p. 74, 75).

These features are limited to models incorporating “HDAVI Control” and “VIERA Link”.

- Some functions are not available depending on the equipment’s version of HDAVI Control. Confirm the connected equipment’s version of HDAVI Control.
- VIERA Link “HDAVI Control”, based on the control functions provided by HDMI which is an industry standard known as HDMI CEC (Consumer Electronics Control), is a unique function that we have developed and added.
  - As such, its operation with other manufacturers’ equipment that supports HDMI CEC cannot be guaranteed.
  - Please refer to individual manuals for other manufacturers’ equipment supporting VIERA Link function.
  - For information about applicable Panasonic equipment, consult your local Panasonic dealer or refer to www.panasonic.co.uk

**Preparations**

- Connect the equipment supporting VIERA Link.
- VIERA Link connection ⇒ (p. 74, 75)
- Use fully wired HDMI compliant cable. Non-HDMI-compliant cables cannot be utilised.
  - Recommended Panasonic’s HDMI cable part number:
    - RP-CDHS15 (1.5 m)  • RP-CDHS30 (3.0 m)  • RP-CDHS50 (5.0 m)
- Use fully wired SCART cable.
- Set up the connected equipment. Read the manual of the equipment.
- For optimal recording, the settings of the recorder may need to be changed. For details, read the manual of the recorder.
- Download Analogue channel setting ⇒ “Analogue channel download” (see below)
- Set [VIERA Link] to [On] in the Setup Menu. ⇒ [VIERA Link] (p. 37)
- Set up the TV.
  - After connection, turn the equipment on and then switch the TV on.
  - Select the input mode from HDMI1, HDMI2, HDMI3 or HDMI4 (p. 29), and make sure that an image is displayed correctly.
    - This setup should be done each time when the following conditions occur:
      - the first time
      - when adding or reconnecting equipment
      - when changing setup

**Features available**

**Analogue channel download**

Analogue channel settings can be downloaded to a recorder with an analogue tuner (where Analogue is still broadcast). Digital channel settings are not downloaded.

- To download the Analogue channel settings
  - ⇒ [Q-Link Download] (p. 37), [Auto Setup] (p. 14, 44)

**Easy playback**

Automatic input switching - When the connected equipment is operated (during playback or menu operations, etc.), the input mode is switched automatically. When playback is stopped or menus are exited, the input mode returns to the original setting.

**Power on link**

When DVD Recorder / VCR starts playback or direct navigator / function menu for the equipment are activated, the TV is turned on and input mode is switched automatically so that you can view the content. (Only when the TV is in Standby mode.)

**Power off link**

When the TV is set to Standby mode, the connected equipment is also automatically set to Standby.

- This function will work even if the TV enters Standby mode automatically by auto power standby function.
Reduce unnecessary power consumption in Standby [Standby Power Save]

Set Standby Power Save [On] in the Setup Menu to use this function ⇒ [Standby Power Save] (p. 37)
The power consumption in Standby mode of the connected equipment is controlled higher or lower in synchronisation with the TV on / off state to reduce the consumption.
When the TV is set to Standby mode, the connected equipment is automatically set to Standby and the power consumption of the connected equipment is automatically minimised.
When the TV is turned on, the connected equipment is still in Standby mode, but the power consumption is increased to make startup time fast.
⇒ This function is effective if the connected equipment can change the power consumption in Standby mode and is set to higher consumption.

Auto standby for unnecessary equipment [Intelligent Auto Standby]

Set Intelligent Auto Standby [On (With reminder)] or [On (No reminder)] in the Setup Menu to use this function ⇒ [Intelligent Auto Standby] (p. 37)
When the TV is on, non-watched or non-used connected equipment goes into Standby mode automatically to reduce the power consumption. For example, when the input mode is switched from HDMI, the connected equipment will go into Standby mode / or when Speaker Selection is changed to [TV] (except for watching a disc).
⇒ If you select [On (With reminder)], the on-screen message will be displayed before the connected equipment turns to standby.
⇒ This function may not work properly depending on the connected equipment. If required, set to [Off].

Direct TV Recording - What you see is What you record [Direct TV Rec]

Records the current programme in the DIGA Recorder immediately.
⇒ If you connect a variety of recorders including other manufacturers' recorders at the same time, connect the DIGA Recorder to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder to HDMI1.
⇒ If you cannot operate, check the settings and the equipment.
⇒ “Summary of Q-Link and VIERA Link features” (p. 74, 75), “Preparations” (p. 77)
⇒ To record the programme which DIGA Recorder does not support, SCART connection is required and the programme is recorded by Q-Link function (p. 76).
⇒ Depending on the programme, SCART connection may be required to record.
⇒ You can change channel or turn the TV off while the recorder is recording from its own tuner.
⇒ You can not change channel while the recorder is recording from the TV tuner.

1 Display [VIERA TOOLS] and select [VIERA Link]

2 Select [Direct TV Rec] and start recording

To stop recording
Select [Stop] in [Direct TV Rec]

Unlock the tuner
Press EXIT to unlock and stop recording
Pause Live TV programme [Pause Live TV]

You can pause the current TV programme and resume later. The current TV programme will be recorded on HDD of the connected DIGA Recorder.

- This function is available with a DIGA Recorder which has HDD.
- If you connect a variety of recorders including other manufacturers' recorders at the same time, connect the DIGA Recorder which has HDD to the TV's lower HDMI terminal number. For example, if you use HDMI1 and HDMI2 for two recorders, connect the DIGA Recorder which has HDD to HDMI1.
- If you cannot operate, check the settings and the equipment.

→ “Summary of Q-Link and VIERA Link features” (p. 74, 75), “Preparations” (p. 77)

1 Display [VIERA TOOLS] and select [VIERA Link]

2 Select [Pause Live TV] and pause

The TV picture will be paused.

To operate [Pause Live TV]

- Operations may vary depending on the recorder. In this case, follow the operation guide or read the manual of the recorder.

To return to current TV (Stop playback of [Pause Live TV] / cancel pause)

Select [Yes]

Control the menu of the connected equipment by VIERA remote control [VIERA Link Control]

You can control some functions of the connected equipment with this TV remote control pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment.

→ “Summary of Q-Link and VIERA Link features” (p. 74, 75), “Preparations” (p. 77)

For details of the operations for the connected equipment, read the manual of the equipment.

1 Display [VIERA TOOLS] and select [VIERA Link]
Select [VIERA Link Control]

1. Select [VIERA Link Control]
2. Access [Recorder/Player/Home Cinema]

Select the equipment to access

Select the type of the connected equipment and access.

2. You can also access directly by using VIERA TOOLS. (p. 31)
3. The displayed item may vary depending on the connected equipment.
4. [Home Cinema] means Player theatre, Blu-ray Disc theatre or Recorder theatre.
5. [Other] means Tuner set top box.

The menu of the accessed equipment will be displayed.
(Input mode will be changed automatically)

Operate the menu of the equipment

1. Set the code of the remote control to “73” (p. 30).
2. To display the operation guide
   OPTION
   - If other manufacturers’ equipment is accessed, Setup / Contents Selection menu may be displayed.
   - Available VIERA remote control buttons depend on the connected equipment.

   Note
   - Some operations may not be available depending on the equipment. In this case use its own remote control to operate the equipment.

If multiple recorders or players are connected

The number is given from the TV’s lower number of HDMI terminal connected to the same type equipment. For example, two recorders to HDMI2 and HDMI3, the recorder connected to HDMI2 is displayed as [Recorder1], and the recorder connected to HDMI3 is displayed as [Recorder2].

If you access non-VIERA Link equipment

The type of the connected equipment is displayed. Although you can access the connected equipment, you cannot operate it. Use its own remote control to operate the equipment.
Speaker control [Speaker Selection]

You can control the theatre speaker with this TV remote control pointing at the TV’s signal receiver.

- If you cannot operate, check the settings and the equipment.

  “Summary of Q-Link and VIERA Link features” (p. 74, 75), “Preparations” (p. 77)

1. Display [VIERA TOOLS] and select [VIERA Link]

2. Select [Speaker Selection]

3. Set to [Home Cinema] or [TV]

   [Home Cinema]:
   The sound is from theatre speakers. Player theatre, Blu-ray Disc theatre or Amplifier will be automatically turned on if it is in Standby mode.

   - Volume up / down
   - Mute
   - The sound of TV speakers is mute.
   - When the equipment is turned off, TV speakers will be active.

   [TV]:
   TV speakers are active.

Multi-channel sound

If you want to enjoy the multi-channel sound (e.g. Dolby Digital 5.1ch) via an Amplifier, connect it with HDMI cable and Optical digital audio cable (p. 75), and then select [Home Cinema]. If your Amplifier has “HDAVI Control 5” function, you only need to connect it with HDMI cable to the TV’s HDMI2 terminal.

To enjoy the sound from the DIGA Recorder in multi-channel sound, connect an HDMI cable from the DIGA Recorder to the Amplifier (p. 75).

---

**Note**

- These functions may not work properly depending on the connected equipment.
- Image or sound may not be available for the first few seconds when input mode is switched.
- “HDAVI Control 5” is the newest standard (as of November, 2011) for HDAVI Control compatible equipment. This standard is compatible with conventional HDAVI equipment.
- To confirm this TV’s version of HDAVI Control ➔ [System Information] (p. 39)
External Equipment

These diagrams show our recommendations for connection of your TV to various pieces of equipment. For other connections, consult the instructions for each piece of equipment, the basic connection (p. 11 - 13), the table (p. 84), and the specifications (p. 102, 103).

To watch DVDs

- ○: Recommended Connection
- *1: To connect the equipment, the terminal adaptor (supplied) is necessary.
- *2: Use HDMI1 for automatic input switching.
- *3: Use HDMI2 for connecting an amplifier. This connection is applicable when using an amplifier that has ARC (Audio Return Channel) function.
- *4: Use USB 2 port for connecting the Communication Camera.
Technical Information

Auto Aspect

The optimum size and aspect can be chosen automatically, and you can enjoy finer images. (p. 22)

Aspect Control Signal

[WIDE] will appear in the top left of the screen if a Widescreen signal (WSS) or a Control signal through SCART / HDMI terminal is found.

The aspect will switch to the appropriate 16:9 or 14:9 widescreen ratio.

This function will work in any aspect mode.

Auto mode

Auto mode determines the best aspect ratio to fill the screen using a four step process (WSS, Control signal through SCART / HDMI terminal, Letterbox detection or Justify to fill the screen).

This process may take several minutes, depending on the darkness of the image.

Letterbox detection:

If black bands at the top and bottom of the screen are detected, Auto mode chooses the best ratio and expands the image to fill the screen.

If no aspect signals are detected, Auto mode enhances the image for optimum viewing pleasure.

Note

- The ratio varies depending on the programme, etc. If the ratio is out of the standard 16:9, black bands at the top and bottom of the screen may appear.
- If the screen size looks unusual when a widescreen-recorded programme is played back on a VCR, adjust the tracking of the VCR. Read the manual of the VCR.

**Note**

- Some files may not be played back even if they fulfil these conditions.
- Do not use two-byte characters or other special codes for data.
- The device may become unusable with this TV if the file or folder names are changed.
DivX Certified® to play DivX® and DivX Plus® HD (H.264/MKV) video up to 1080p HD including premium content.

ABOUT DIVX VIDEO:
DivX® is a digital video format created by DivX, LLC, a subsidiary of Rovi Corporation. This is an official DivX Certified® device that plays DivX video. Visit divx.com for more information and software tools to convert your files into DivX videos.

Subtitle text file of DivX
Subtitle format - MicroDVD, SubRip, TMPlayer
- The DivX video file and subtitles text file are inside the same folder, and the file names are the same except for the file extensions.
- If there are more than one subtitles text files inside the same folder, they are displayed in the following order of priority: 
  "srt", "sub", "txt".
- To confirm or change the current subtitle status while playing DivX content, press the OPTION button to display Option Menu.
- Depending on the methods used to create the file or the state of recording, only parts of the subtitles may be displayed, or the subtitles may not be displayed at all.

Note
- Depending on how you make SD Card, USB Flash Memory or the media server, files and folders may not be displayed in the order you numbered.
- Depending on how you create the files and the structure of folders, the files and folders may not be displayed.
- When there are many files and folders, operation may take time to complete or some files may not be displayed or playable.

ABOUT DIVX VIDEO-ON-DEMAND:
This DivX Certified® device must be registered in order to play purchased DivX Video-on-Demand (VOD) movies. To obtain your registration code, locate the DivX VOD section in the Setup Menu. Go to vod.divx.com for more information on how to complete your registration.

To show DivX VOD registration code
- [DivX® VOD] (p. 39)
- If you want to generate the new registration code, you have to deregister the current registration code. After playing DivX VOD content once, the confirmation screen to deregister will be displayed in [DivX® VOD] in the Setup Menu. If you press the OK button on the confirmation screen, the deregistration code will be generated and you will not be able to play any contents that you purchased using the current registration code.
- You will obtain the new registration code by pressing the OK button on the deregistration code screen.
- If you purchase DivX VOD content using a registration code different from this TV’s code, you will not be able to play this content. (Your device is not authorized to play this DivX protected video.] is displayed.)

Regarding DivX content that can only be played a set number of times
Some DivX VOD content can only be played a set number of times. When you play this content, the remaining number of plays is displayed. You cannot play this content when the number of remaining plays is zero. ([This DivX rental has expired.] is displayed.)
- When playing this content, the number of remaining plays is reduced by one in the following conditions:
  • If you exit the current application.
  • If you play the other content.
  • If you go to the next or previous content.
Devices for recording or playing back

**SD Card**
Card format:
- SDXC Card - exFAT
- SDHC Card / SD Card - FAT16 or FAT32
Compliant card type (maximum capacity):
- SDXC Card (64 GB), SDHC Card (32 GB), SD Card (2 GB), miniSD Card (2 GB) (requiring miniSD adaptor)
- If miniSD Card is used, insert / remove it together with the adaptor.
- Check the latest information on the card type at the following website.
- Use an SD Card which meets SD standards. If not, it may cause the TV to malfunction.

**USB Flash Memory** (for playing back in Media Player)
USB Flash Memory format: FAT16, FAT32 or exFAT
- A USB HDD formatted by PC is not supported in Media Player.

**Note**
- Data modified with a PC may not be displayed.
- Do not remove the device while the TV is accessing data. Otherwise this can damage device or TV.
- Do not touch the pins on the device.
- Do not subject the device to a high pressure or impact.
- Insert the device in the correct direction. Otherwise this can damage device or TV.
- Electrical interference, static electricity, or erroneous operation may damage the data or device.
- Back up the recorded data at regular intervals in case of deteriorated or damaged data or erratic operation of the TV. Panasonic is not liable for any deterioration or damage of recorded data.

PC connection

A PC may be connected to this TV so that the PC screen is displayed and sound is heard from the TV.
- PC signals that can be input: Horizontal scanning frequency 31 to 69 kHz; vertical scanning frequency 59 to 86 Hz (more than 1,024 signal lines could result in incorrect display of the image).
- A PC adaptor is not necessary for the DOS/V-compliant D-sub 15-pin connector.

**Note**
- Some PC models cannot be connected to this TV.
- When using PC, set the colour display quality of PC to the highest position.
- For details of the applicable PC signals
  - “Input signal that can be displayed” (p. 91)
  - D-sub 15-pin connector signal

HDMI connection

HDMI (high-definition multimedia interface) is the world’s first complete digital consumer AV interface complying with a non-compression standard. HDMI allows you to enjoy high-definition digital images and high-quality sound by connecting the TV and the equipment.

HDMI-compatible equipment*1 with an HDMI or DVI output terminal, such as a DVD player, a set top box or game equipment, can be connected to the HDMI terminal using an HDMI compliant (fully wired) cable.

For more information about connections ➔ (p. 12, 82)

■ Applicable HDMI features

- Input audio signal:
  2ch Linear PCM (sampling frequencies - 48 kHz, 44.1 kHz, 32 kHz)
- Input video signal:
  ➔ “Input signal that can be displayed” (p. 91)
  Match the output setting of the digital equipment.
- Input PC signal:
  ➔ “Input signal that can be displayed” (p. 91)
  Match the output setting of the PC.

■ DVI connection

If the external equipment has only a DVI output, connect to the HDMI terminal via a DVI to HDMI adaptor cable*3.

When the DVI to HDMI adaptor cable is used, connect the audio cable to AUDIO terminal with the supplied AV2 (COMPONENT / VIDEO) adaptor.

Note
- Audio settings can be made on [HDMI1 / 2 / 3 / 4 Input] in the Sound Menu. (p. 35)
- If the connected equipment has an aspect adjustment function, set the aspect ratio to “16:9”.
- These HDMI connectors are “type A”.
- These HDMI connectors are compatible with HDCP (High-Bandwidth Digital Content Protection) copyright protection.
- Equipment having no digital output terminal may be connected to the input terminal of component or video to receive analogue signals.
- This TV incorporates HDMI™ technology.

*1: The HDMI logo is displayed on HDMI-compliant equipment.
*2: Audio Return Channel (ARC) is a function to send digital sound signals via an HDMI cable.
*3: Enquire at your local digital equipment retailer shop.

USB connection

It is recommended to connect the USB Flash Memory or Communication Camera to the TV’s USB ports directly.
- Some USB devices or USB HUB may not be used with this TV.
- You cannot connect any devices by using USB card reader.
- You cannot use two or more same kind of USB devices simultaneously except USB Flash Memory.
- Additional information for USB devices may be on the following website.
  http://panasonic.jp/support/global/cs/tv/

■ USB Keyboard

- The USB Keyboard requiring its driver is not supported.
- To change the language type ➔ [USB Keyboard Layout] (p. 39)
- Characters may not be displayed correctly on the TV screen depending on the connected keyboard or the keyboard layout setting.
- Some of the keys of USB keyboards may correspond to the operation of the remote control.

HDMI terminal
How to use Windows 7 as a media server

Follow the examples below to set up Windows 7 for use as a media server.
Confirm the MAC Address of VIERA in [Network Status] (p. 36).
The following procedure and screens are examples. For more information, refer to the help functions of Windows 7.

1. Open the Windows start menu and select [Control Panel]. Select [HomeGroup] in Control Panel window.

2. Be sure [Pictures], [Music] and [Videos] of "Share libraries and printers" and [Stream my pictures, music, and videos to all devices on my home network] of "Share media with devices" are checked. (Check them and click [Save changes] if necessary). Then select [Choose media streaming options...].

3. In [Name your media library:] text box, enter a name that will identify your PC on VIERA. On the Show devices drop bar, select [All networks] to display all the available devices in the list. VIERA Name stored in [Network Link Settings] (p. 67) will be displayed. Select the VIERA Name and click [Allowed] so that VIERA can access your PC. Then, click [OK].

If the VIERA Name is not displayed correctly, click the device to confirm the MAC address of the device in property window. Find a device that has the same MAC address as VIERA: that is your VIERA.

4. To share photos, music and videos with VIERA, put photo files into [Public Pictures] folder and video files into [Public Videos] folder under \Computer\Local Disk (C:)\Users\Public.
FAQs

Before requesting service or assistance, please follow these simple guides to resolve the problem. If the problem still persists, please contact your local Panasonic dealer for assistance.

Block noise, frozen or disappearing image occurs in DVB mode / White spots or shadow image (ghosting) occurs in Analogue mode / Some channels cannot be tuned
- Check the position, direction and connection of the aerial.
- Check [Signal Condition] (p. 47). If [Signal Quality] is displayed in red, the DVB signal is weak.
- Check your postcode area is able to receive the Freeview channels at www.freeview.co.uk
- Digital signals may be relatively low to prevent interference with analogue signals for the period of Digital Switchover. Check the schedule of Digital Switchover at www.digitaluk.co.uk
- Weather conditions will affect signal reception (heavy rain, snow, etc.), in particular in poor reception areas. Even during good weather, the high pressure can cause poor reception of some channels.
- Due to the digital reception technologies involved, quality of the digital signals may be relatively low in some cases, despite good reception of analogue channels.
- Turn the TV off with the Mains power On / Off switch, and then on again.
- If problem persists, consult your local dealer or service provider for the availability of services.

No programmes shown on TV Guide
- Check the digital transmitter.
- Adjust the direction of the aerial to another transmitter installed nearby.
- Check the analogue broadcast. If the image quality is poor, check the aerial and consult your local dealer.

Neither image nor sound is produced
- Check the TV is turned on.
- Check the mains lead is plugged into the TV and the socket outlet.
- Check the TV is in AV mode.
- Check the correct input mode is selected.
- Check the Picture Menu (p. 33, 34) and volume.
- Check all required cables and connections are firmly in place.

Auto aspect
- Auto aspect is designed to provide you with the best ratio to fill the screen. ➔ (p. 85)
- Press the ASPECT button if you want to change the aspect ratio manually. ➔ (p. 22)

Black and white picture
- Check that the output of the external equipment matches the input of the TV.
  When connecting with SCART, ensure the output setting of the external equipment is not S-Video.

Input mode, i.e. EC/AV1 remains on the screen
- Press the button to clear it.
  Press again to redisplay.

Q-Link function does not work
- Confirm SCART cable and connection.
  Also set [AV1 out] in the Setup Menu. ➔ (p. 37)

[VIERA Link] function does not work and an error message appears
- Confirm the connection. ➔ (p. 74, 75)
- Turn the connected equipment on and then switch the TV on. ➔ (p. 77)

Recording does not start immediately
- Check the settings of the recorder. For details, read the manual of the recorder.

There may be red, blue, green and black spots on the screen
- This is a characteristic of liquid crystal panels and is not a problem. The liquid crystal panel is built with very high precision technology giving you fine picture details. Occasionally, a few non-active pixels may appear on the screen as a fixed point of red, green, blue or black. Please note this does not affect the performance of your LCD.
<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
</table>
| Chaotic image, noisy | - Set [P-NR] in the Picture Menu to remove noise. (p. 33)  
- Check nearby electrical products (car, motorcycle, fluorescent lamp). |
| No image can be displayed | - Is [Contrast], [Brightness] or [Colour] in the Picture Menu set to the minimum? (p. 33)  
- Check the setting of [AV2] ([COMPONENT] / [VIDEO]) in [Input Selection] to match the output of the external equipment. (p. 29) |
| Blurry or distorted image (no sound or low volume) | - Reset channels. (p. 44) |
| Unusual image is displayed | - Turn the TV off with Mains power On / Off switch, then turn it on again.  
- If the problem persists, initialise all settings. [Shipping Condition] (p. 51) |
| No sound is produced | - Is “Sound mute” active? (p. 9)  
- Is the volume set to the minimum? |
| Sound level is low or sound is distorted | - Sound signal reception may be deteriorated.  
- Set [NICAM] (p. 35) in the Sound Menu to [Mono]. (Analogue) |
| Sound is unusual | - Set the sound setting of the connected equipment to “2ch L.PCM”.  
- Check the [HDMI1 / 2 / 3 / 4 Input] setting in the Sound Menu. (p. 35)  
- If digital sound connection has a problem, select analogue sound connection. (p. 90) |
| Pictures from external equipment are unusual when the equipment is connected via HDMI | - Check the HDMI cable is connected properly. (p. 82)  
- Turn the TV and equipment off, then turn them on again.  
- Check an input signal from the equipment. (p. 91)  
- Use equipment compliant with EIA/CEA-861/861D. |
| Cannot connect to the network | - Check the LAN cable or wireless LAN is connected properly. (p. 66)  
- Check the connections and settings. (p. 66 - 70)  
- Check the network equipment and network environment.  
- The router may not be set to issue IP address automatically. If the network administrator prefers to allocate an IP address, set an IP address manually. (p. 68)  
- The router may be using MAC address filtering (security setting). Confirm the MAC Address of this TV (p. 36) and set the router to use it.  
- If the problem persists, consult your Internet Service Provider or telecommunications company. |
| Cannot select the file during DLNA operations | - Is media server of the connected equipment prepared? (p. 65)  
- Check applicable data format. (p. 86, 87) |
| Cannot operate VIERA Connect | - Check the connections and settings. (p. 66 - 70)  
- The server or connected line may be busy now. |
## Problem Causes / Actions

<table>
<thead>
<tr>
<th>Problem</th>
<th>Causes / Actions</th>
</tr>
</thead>
<tbody>
<tr>
<td>The TV does not switch on</td>
<td>* Check the mains lead is plugged into the TV and the socket outlet.</td>
</tr>
<tr>
<td>The TV goes into Standby mode</td>
<td>* Auto power standby function is activated. [p. 10] * The TV enters Standby mode about 30 minutes after analogue broadcasting ends.</td>
</tr>
<tr>
<td>The remote control does not work or is intermittent</td>
<td>* Are the batteries installed correctly? [p. 7] * Has the TV been switched on? * The batteries may be running low. Replace them. * Point the remote control directly at the front of the TV (within about 7 m and a 30 degree angle of the front of the TV). * Situate the TV away from sunshine or other sources of bright light not to shine on the TV's remote control signal receiver.</td>
</tr>
<tr>
<td>Parts of the TV become hot</td>
<td>* Even when the temperature of parts of the front, top and rear panels has risen, these temperature rises do not cause any problems in terms of performance or quality.</td>
</tr>
<tr>
<td>The LCD panel moves slightly when it is pushed with a finger</td>
<td>* There is some flexibility around the panel to prevent damage to the panel. * The panel might move slightly when it is pushed with a finger, and clattered sound might be heard. This is not a malfunction.</td>
</tr>
<tr>
<td>Overcurrent error message appears</td>
<td>* The connected USB device might cause this error. Remove the device and turn the TV off with Mains power On / Off switch, then turn it on again. * Check foreign objects are not inside the USB port.</td>
</tr>
<tr>
<td>An error message appears</td>
<td>* Follow the message’s instructions. * If the problem persists, contact your local Panasonic dealer or the authorised service centre.</td>
</tr>
</tbody>
</table>

## On-screen messages

<tr>
<th>Message</th>
<th>Meaning / Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>All tuning data will be erased</td>
<td>* [Shipping Condition] will erase all tuning data. [p. 51]</td>
</tr>
<tr>
<td>Are you sure ?</td>
<td>* Confirm correct operation.</td>
</tr>
<tr>
<td>Are you sure you want to delete this timer ? Press OK to delete timer. Press RETURN to return.</td>
<td>* Confirm correct operation.</td>
</tr>
<tr>
<td>Bad signal</td>
<td>* The signal is weak. Check the aerial is plugged in properly. It may be necessary to have an aerial installer check the signal and aerial alignment. * Reset channels. [p. 44]</td>
</tr>
<tr>
<td>Child Lock is active! Press OK to enter PIN.</td>
<td>* The selected channel is locked in Child Lock (p. 50). You must enter the PIN number before the channel will be displayed.</td>
</tr>
<tr>
<td>External Recording Due to Start</td>
<td>* This message will appear 2 minutes before timer programming event for external recording due to start.</td>
</tr>
<tr>
<td>Feature not available.</td>
<td>* It is not possible to record from AV2 (COMPONENT) or HDMI. Connect the recorder to the TV using a fully wired SCART cable for recording from the TV tuner. * Confirm Q-Link or VIERA Link settings. [p. 74 - 77]</td>
</tr>
<tr>
<td>Found new software version</td>
<td>* There is a new software available.</td>
</tr>
</tbody>
</table>

### Other

- Are you sure you want to delete this timer?
- Press OK to delete timer. Press RETURN to return.
- Found new software version

- Press OK to start update (may
  take over 40 mins) or press
  EXIT to ignore and you can update when TV is in standby.

### Maintenance

**First, remove the mains plug from the socket outlet.**

**Display panel, Cabinet, Pedestal**

Regular care:
Gently wipe the surface of the display panel, cabinet, or pedestal by using a soft cloth to clean the dirt or fingerprints.

For stubborn dirt:
First clean the dust on the surface. Dampen a soft cloth with clean water or diluted neutral detergent (1 part detergent to 100 parts water). Wring the cloth and wipe the surface. Finally, wipe away all the moisture.

**Caution**
- Do not use a hard cloth or rub the surface too hard, otherwise this may cause scratches on the surface.
- Take care not to subject the TV's surfaces to water or detergent. Liquid inside the TV could lead to product failure.
- Take care not to subject the surfaces to insect repellent, solvent, thinner or other volatile substances. This may degrade surface quality or cause peeling of the paint.
- The surface of the display panel is specially treated and may be easily damaged. Take care not to tap or scratch the surface with your fingernail or other hard objects.
- Do not allow the cabinet and pedestal to make contact with a rubber or PVC substance for a long time. This may degrade surface quality.

**Mains plug**

Wipe the mains plug with a dry cloth at regular intervals. Moisture and dust may lead to fire or electrical shock.
**Glossary**

**DLNA**
Digital Living Network Alliance

**DVI**
Digital Visual Interface - A high quality video interface standard to connect to the display

**ETHERNET**
One of the popular standards of LAN

**EPG**
Electronic Programme Guide - A digital guide showing scheduled programmes

**HDMI**
High-Definition Multimedia Interface - A digital audio and video interface for transmitting uncompressed digital signals on a single cable

**LAN**
Local Area Network

**MAC Address**
Media Access control Address

**NICAM**
Near Instantaneous Companded Audio Multiplex - A format for digital sound over television

**NTSC**
National Television System Committee - One of the television signals used in USA, etc.

**RF**
Radio Frequency - Signal received from terrestrial aerial

**SCART**
21 pin connection used for video, audio and switching signals (Also known as Euro SCART and Peritel)

**SPDIF**
A standard audio transfer file format

**USB**
Universal Serial Bus - An interface specification to connect devices

**VCR**
Video Cassette Recorder

**Shop viewing environment**
Shop viewing environment is the demonstration mode to explain main features of this TV in an easy understandable way. This mode will work if you select [Shop] in “Auto Setup” (p. 17).

**Note**

- Design and Specifications are subject to change without notice. Mass and Dimensions shown are approximate.
- For the information of power consumption, display resolution, etc., please refer to Product fiche.
- This equipment complies with the EMC standards listed below.

EN55013, EN61000-3-2, EN61000-3-3, EN55020, EN55022, EN55024
Information for Users on Collection and Disposal of Old Equipment and used Batteries

These symbols on the products, packaging, and/or accompanying documents mean that used electrical and electronic products and batteries should not be mixed with general household waste. For proper treatment, recovery and recycling of old products and used batteries, please take them to applicable collection points, in accordance with your national legislation and the Directives 2002/96/EC and 2006/66/EC.

By disposing of these products and batteries correctly, you will help to save valuable resources and prevent any potential negative effects on human health and the environment which could otherwise arise from inappropriate waste handling.

For more information about collection and recycling of old products and batteries, please contact your local municipality, your waste disposal service or the point of sale where you purchased the items. Penalties may be applicable for incorrect disposal of this waste, in accordance with national legislation.

For business users in the European Union
If you wish to discard electrical and electronic equipment, please contact your dealer or supplier for further information.

[Information on Disposal in other Countries outside the European Union]
These symbols are only valid in the European Union. If you wish to discard these items, please contact your local authorities or dealer and ask for the correct method of disposal.

Note for the battery symbol (bottom two symbol examples):
This symbol might be used in combination with a chemical symbol. In this case it complies with the requirement set by the Directive for the chemical involved.

Sales and Support Information

Customer Communications Centre
• For customers within the UK: 0844 844 3899
• For customers within Ireland: 01 289 8333
• For further support on your product, please visit our website: www.panasonic.co.uk

Direct Sales at Panasonic UK
• Order accessory and consumable items for your product with ease and confidence by phoning our Customer Communications Centre. Monday – Thursday 9:00am – 5:30pm, Friday 9:30am – 5:30pm (Excluding public holidays)
• Or go on line through our Internet Accessory ordering application at www.pas-europe.com.
• Most major credit and debit cards accepted.
• All enquiries transactions and distribution facilities are provided directly by Panasonic UK.
• It couldn’t be simpler!
• Also available through our Internet is direct shopping for a wide range of finished products. Take a browse on our website for further details.
